Swift's Poetic Worlds Louise K. Barnett,1981 The author shows how Swift s poetry reveals a structural unity when it is examined as a coherent whole The structure that emerges is a dynamic relationship between the effort to order the poem s principle of unity and an opposing principle of expansion

Larger Than Life R. Barton Palmer,2010-06-30 The constellation of Hollywood stars burned brightly in the 1950s even as the industry fell on hard economic times Major artists of the 1940s James Stewart Jerry Lewis and Gregory Peck continued to exert a magical appeal but the younger generation of moviegoers was soon enthralled by an emerging cast led by James Dean and Marlon Brando They among others ushered in a provocative acting style the Method bringing hard edged realistic performances to the screen Adult oriented small budget dramas were ideal showcases for Method actors startlingly realized when Brando seized the screen in *On the Waterfront* But with competition from television looming Hollywood also featured film making of epic proportion *Ben Hur* and other cinema wonders rode onto the screen with amazing spectacle making stars of physically impressive performers such as Charlton Heston *Larger Than Life* offers a comprehensive view of the star system in 1950s Hollywood and also in depth discussions of the decade s major stars including Montgomery Clift Judy Holliday Jerry Lewis James Mason Marilyn Monroe Kim Novak Bing Crosby Gene Kelly Jayne Mansfield and Audrey Hepburn

Rearming for the Cold War, 1945-1960 Elliott Vanveltner Converse,2012 Book Description The first publication in a multivolume series on the history of the acquisition of major weapon systems by the Department of Defense author Elliott Converse presents a meticulously researched overview of changes in acquisition policies organizations and processes within the United States military establishment during the decade and a half following World War II Many of the changes that shaped the nature and course of weapons research and development production and contracting through the end of the century were instituted between 1945 and 1960 many of the problems that have repeatedly challenged defense policymakers and acquisition professionals also first surfaced during these years This study is the first to combine the histories of the Office of the Secretary of Defense OSD and the military services into one account The volume is organized chronologically with individual chapters addressing the roles of OSD the Army Navy and Air Force in two distinct periods

History of Acquisition in the Department of Defense, Volume 1 Elliott V. Converse,2012-06-12 This volume is a history of the acquisition of major weapon systems by the United States armed forces from 1945 to 1960 the decade and a half that spanned the Truman and Eisenhower administrations following World War II

These instruments of warfare aircraft armored vehicles artillery guided missiles naval vessels and supporting electronic systems when combined with nuclear warheads gave the postwar American military unprecedented deterrent and striking power 1 They were also enormously expensive The volume is organized chronologically with individual chapters addressing the roles of OSD the Army Navy and Air Force in two distinct periods The first roughly coinciding with President Truman's tenure covers the years from the end of World War II through the end of the Korean War in 1953 The second spans the two terms of the Eisenhower presidency from 1953 through early 1961 The year 1953 marked a natural breakpoint between the two periods The Korean War had ended President Eisenhower and his defense team began implementing the New Look a policy and strategy based on nuclear weapons which they believed would provide security and make it possible to reduce military spending The New Look's stress on nuclear weapons along with the deployment of the first operational guided missiles and the rapid advances subsequently made in nuclear and missile technology profoundly influenced acquisition in the services throughout the 1950s and the remainder of the century As used in this study the term acquisition encompasses the activities by which the United States obtains weapons and other equipment In surveying the history of acquisition between 1945 and 1960 this study discusses or refers in passing to many of the hundreds of weapon system programs initiated by the services in that period but it is not a weapons encyclopedia Instead it investigates a few major programs in depth in the belief that such detailed examination best reveals the evolution of acquisition policies organizations and processes and the various forces influencing weapons programs

staple of the Post's society gossip columns. Endlessly flirtatious, she married four times and had extramarital romances with among others Franklin Roosevelt and Max Beaverbrook. She was a friend of national politicians such as Adlai Stevenson, the Kennedys, Lyndon Johnson, and Nelson Rockefeller. Born into a staunchly Republican German Jewish banking family, she used her inheritance to further causes of the political left. She used her charm and her social connections in the service of her paper, which was the center of her life. *The Lady Upstairs* is the portrait of a unique life and a crucial era in American history.
