The Black Soldiers Who Built the Alaska Highway John Virtue, 2012-11-16 This is the first detailed account of the 5 000 black troops who were reluctantly sent north by the United States Army during World War II to help build the Alaska Highway and install the companion Canol pipeline Theirs were the first black regiments deployed outside the lower 48 states during the war The enlisted men most of them from the South faced racial discrimination from white officers were barred from entering any towns for fear they would procreate a mongrel race with local women and endured winter conditions they had never experienced before Despite this they won praise for their dedication and their work Congress in 2005 said that the wartime service of the four regiments covered here contributed to the eventual desegregation of the Armed Forces

The Greatest Show in the Arctic P. J. Capelotti, 2016-05-06 In Gilded Age America Arctic explorers were fabulous celebrities assured of riches and near immortality so long as they reached the North Pole first Of the many attempts to meet that goal three American expeditions launched from the Russian archipelago of Franz Josef Land ended in abject failure their exploits consigned to near oblivion Even so these ventures the Wellman expedition 1898 99 the Baldwin Ziegler 1901 2 and the Fiala Ziegler 1903 5 have much to tell us about the personalities politics and economics of exploration in their day In *The Greatest Show in the Arctic* the first book to chronicle all three expeditions P J Capelotti explores what went right and what in the end went tragically wrong The cast of colorful characters from the Franz Josef Land forays included Walter Wellman a Chicago journalist and bon vivant running from debts his mistress and an illegitimate daughter Evelyn Briggs Baldwin a deranged meteorologist with a fetish for balloons and a passion for Swedish preserves and Anthony Fiala a pious photographer in search of God in the Arctic Featuring an international cast of supporting characters worthy of a three ring circus *The Greatest Show in the Arctic* follows each of the three expeditions in turn from spectacular feats of financing to their bitter ends Along the way the explorers accumulated considerable geographic knowledge and left a legacy of place names Through close study of the expeditions journals Capelotti reveals that the Franz Josef Land endeavors foundered chiefly because of poor leadership and internal friction not for lack of funding as historians have previously suspected Presenting tales of noble intentions novel inventions and epic miscalculations *The Greatest Show in the Arctic* brings fresh life to a unique and underappreciated story of American exploration

Johnson,2012-11-12 A fascinating study of America s first national burial ground with photos It s stunning to realize what a who s who exists in that space Howard Gillette Professor Emeritus Rutgers University at Camden This study explores the multiple ways in which Congressional Cemetery has been positioned for some two hundred years in the shadow of the U S Capitol The narrative proceeds chronologically discussing the burial ground during three periods the antebellum years the years from the end of the Civil War to approximately 1970 when the site progressively deteriorated and the period from the early 1970s to 2007 when both public and private organizations worked to preserve the physical site and the memory of what it has been and continues to represent This monograph focuses on the dominant narrative associated with the site its legacy as the first national burial ground in the nation Given this emphasis the text presents a political and cultural analysis of the cemetery with particular focus on the participation of the U S Congress This book makes historians and many others aware of a fascinating and complicated history Moreover it not only details the long history of the cemetery but it uses it to explore the nature of historic memorials generally in the creation of national memory Steven Diner Chancellor of Rutgers University at Newark The history of Congressional Cemetery is intimately tied up in the changing demographics of its locale and its corresponding decline as the neighborhood around Christ Church changed led to its emergence as a cause c l bre for historic preservationists Donald Kennon Chief Historian for the United States Capitol Historical Society and editor of The Capitol Dome The Johnsons have done an excellent job of mining a wide range of sources and conveying the complex history of an institution that merits documentation Howard Gillette Professor Emeritus Rutgers University at Camden *The Boy Scouts Year Book* Franklin K. Mathiews,1920 **The Boy Scouts' Year Book** ,1920 The Last Secrets The Final Mysteries of Exploration John Buchan,2020-03-06 Excerpt The first two decades of the twentieth century will rank as a most distinguished era in the history of exploration for during them many of the great geographical riddles of the world have been solved This book contains a record of some of the main achievements What Nansen said of Polar exploration is true of all exploration its story is a mighty manifestation of the power of the Unknown over the mind of man The Unknown happily will be always with

us for there are infinite secrets in a blade of grass and an eddy of wind and a grain of dust and human knowledge will never attain that finality when the sense of wonder shall cease But to the ordinary man there is an appeal in large bold and obvious conundrums which is lacking in the minuti of research Thousands of square miles of the globe still await surveying and mapping but most of the exploration of the future will be the elucidation of details The main lines of the earth s architecture have been determined and the task is now one of amplifying our knowledge of the groyning and buttresses and stone work There are no more unvisited forbidden cities or unapproached high mountains or unrecorded great rivers
