Tom Cain, Ruth Connolly

Robert Herricks Hesperides And The Epigram Tradition:

Robert Herrick's Hesperides and the Epigram Book Tradition Ann Baynes Coiro, 1988 *The Complete Poetry of Robert Herrick* Tom Cain, Ruth Connolly, 2013-11-01 This is the first edition for fifty years of one of the greatest of English lyric poets Volume I concentrates on Herrick's large printed collection *Hesperides* published in 1648 and the product of nearly four decades of writing The text is based on a collation of all fifty seven known surviving copies of *Hesperides* In addition it includes a much needed new biography covering the suicide of his father his apprenticeship as a goldsmith banker and his subsequent career in Cambridge London and Devon It provides a survey of Herrick's fluctuating critical reputation from the first in rank and station of English song writers to trivially charming and a detailed reconstruction of the original printing and publishing just after the first Civil War of a book which was the first Complete Works to be published by an English poet There is also a newly ordered sequence of Herrick's letters from Cambridge his only surviving prose An extensive commentary on *Hesperides* is placed in Volume II so that readers can use it side by side with the poems if they wish The commentary gives new translations of Herrick's hundreds of classical allusions and quotes his equally numerous Biblical ones both of them far more extensive and frequently far more playful than has hitherto been realised It also notes many parallels between Herrick's work and that of contemporaries especially Jonson Shakespeare Burton and John Fletcher and his habit of echoing or quoting himself a tendency which reinforces the strong sense of Herrick's persona dominating the collection Full explanations are given of contemporary personal political and cultural references **The epigram in England, 1590-1640**

James Doelman, 2016-06-17 James Doelman's book is the first major study on the Renaissance English epigram since 1947 It combines thorough description of the genre's history and conventions with consideration of the rootedness of individual epigrams within specific social political and religious contexts *The English Civil Wars in the Literary Imagination* Claude J. Summers, Ted-Larry Pebworth, 1999 *Manuscript Miscellanies in Early Modern England* Joshua Eckhardt, Daniel Starza Smith, 2016-05-13 Perhaps more than any other kind of book manuscript miscellanies require a complex and material reading strategy This collection of essays engages the renewed and expanding interest in early modern English miscellanies anthologies and other compilations Manuscript Miscellanies in Early Modern England models and refines the study of these complicated collections Several of its contributors question and redefine the terms we use to describe miscellanies and anthologies Two senior scholars correct the misidentification of a scribe and in so doing uncover evidence of a Catholic probably Jesuit priest and community in a trio of manuscripts Additional contributors show compilers interpreting attributing and arranging texts as well as passively accepting others editorial decisions While manuscript verse miscellanies remain appropriately central to the collection several essays also involve print and prose ranging from letters to sermons and even political prophesies Using extensive textual and bibliographical evidence the collection offers stimulating new readings of literature politics and religion in the early modern period and promises to make important interventions in academic studies

of the history of the book **Intellectual and Imaginative Cartographies in Early Modern England** Patrick Murray, 2022-08-05 Taking as its focus an age of transformational development in cartographic history namely the two centuries between Columbus's arrival in the New World and the emergence of the Scientific Revolution this study examines how maps were employed as physical and symbolic objects by thinkers writers and artists It surveys how early modern people used the map as an object whether for enjoyment or political campaigning colonial invasion or teaching in the classroom Exploring a wide range of literature from educational manifestoes to the plays of Marlowe and Shakespeare it suggests that the early modern map was as diverse and various as the rich culture from which it emerged and was imbued with a whole range of political social literary and personal impulses **Intellectual and Imaginative Cartographies in Early Modern England 1550-1700** will appeal to all those interested in the History of Cartography **Royalism and Poetry in the English Civil Wars** J. Loxley, 1997-10-27 English literary history has long incorporated the category of Cavalier verse and the critical presuppositions that have shaped such a category continue even now to determine the ways in which much civil war writing is read Through a detailed study of both manuscript and printed texts James Loxley arrives at an account of the interaction between poetry and royalist political activity which for the first time presents a sustained and coherent challenge to such presuppositions Sir John Harington and the Book as Gift Jason Scott-Warren, 2001 Sir John Harington 1560-1612 has long been recognized as one of the most colourful and engaging figures at the English Renaissance court Godson of Queen Elizabeth translator of Ariosto and inventor of the water closet he was also a lively writer in a wide variety of modes and an acute commentator on his times This study opens a new perspective on Harington's literary production by attending to the fact that almost all of his writings were designed as gifts Combining detailed readings and first hand historical research Jason Scott Warren reconstructs the complex often devious agenda which Harington wrote into his books as he customized them for specific individuals and occasions Offering a wealth of insights into self-fashioning and the pursuit of patronage this study makes a persuasive case for the significance of material culture to textual interpretation It will be of interest to all who work on the early modern period and in particular to historians of the book *In the Company of Shakespeare* Thomas Moisan, Douglas Bruster, 2002 This book is an anthology of critical essays written about English literature during the Renaissance or the early modern period It focuses on Shakespeare's poetry and plays including the Sonnets The Phoenix and the Turtle The Rape of Lucrece King Lear Othello Measure for Measure and Timon of Athens Also examined are the publication of the plays of Beaumont and Fletcher William Cartwright's play The Royal Slave and James Halliwell-Phillips one of the central figures in the Shakespearean textual tradition *Clever Little Books* Ian Frederick Moulton,
