**Jews in Italy Under Fascist and Nazi Rule, 1922-1945** Joshua D. Zimmerman, 2005-06-27 Publisher Description

*Worlds in Words* Mateusz Borowski, Malgorzata Sugiera, 2010-04-16 The collection of essays *Worlds in Words: Storytelling in Contemporary Theatre* takes up the currently widely debated issue of the revival of various techniques of storytelling in contemporary theatre practice and playwriting. This topic is set in a larger context of the crisis of traditional theatrical and dramatic representation in the 20th century and sets the discussion of new storytelling techniques within the framework of cultural and post-colonial studies as well as the recent theories of performativity. These new performative modes of theatre practice in the recent decades have exerted a strong impact on the mainstream staging techniques as well as on the form and use of texts written for the theatre today. By focusing on the basic relationship between the text, the stage and the audience, the papers collected in this volume trace these fundamental changes taking place nowadays which testify to the major shifts in the understanding of the very concept of theatre, its place among other arts and media as well as in culture, especially in the marginalized cultures and diasporas. The authors of the papers collected here undertake a comprehensive analysis of the phenomenon of storytelling and adopt an interdisciplinary approach which will make it possible to give account of the diverse cultural and socio-political grounding of the contemporary theatrical and dramatic techniques.

**Haunted Laughter** Jonathan C. Friedman, 2022-03-14 A 2023 Choice Reviews Outstanding Academic Title *Haunted Laughter* addresses whether it is appropriate to use comedy as a literary form to depict Adolf Hitler, The Third Reich and the Holocaust. Guided by existing theories of comedy and memory and through a comprehensive examination of comedic film and television productions from the United States, Israel and Europe, Jonathan Friedman proposes a model and a set of criteria to evaluate the effectiveness of comedy as a means of representation. These criteria include depth of purpose, relevance to the times and originality of form and content. Friedman concludes that comedies can be effective if they provide relevant information about life and death in the past, present or future, break new ground and serve a purpose or multiple purposes, capturing the dynamic of the Nazi system of oppression, empowering or healing victims, serving as a warning for the future or keeping those who can never grasp the real horror of genocide from losing perspective.
