## **Roman Cavalry:**

The Roman Cavalry Karen R. Dixon, Pat Southern, 2013-01-11 The cavalry was a vital part of the army of Rome and it played a significant role in the expansion and success of the Roman Empire Karen R Dixon and Pat Southern describe the origins of the mounted units of the Roman army and trace their development from temporary allied troops to the regular alae and cohorts They have drawn together evidence from a wide variety of sources archaeological epigraphic and literary as well as comparing ancient testimony with more recent experience of the use of cavalry The book covers the subject from the perspective of both the men and the horses How were the horses selected and disposed of how were they trained stabled and fed How were the men recruited organized and equipped and what were the conditions of service for a Roman cavalryman The cavalry had to be employed in peacetime and this is discussed as well as its role in war The image of the Roman cavalry is often one of excitement and glory but the authors are aware that a true picture must not overlook the routine and the suffering This book provides a comprehensive account of the Roman cavalry and the current state of knowledge concerning it The wide selection of illustrations includes original drawings by Karen R Dixon Roman Cavalry Tactics M.C. Bishop, 2025-08-28 A fully illustrated study of the Roman cavalry's evolution this fascinating book chronicles tactics and composition from the time of the Republic to the fall of the Dominate The cavalry wings that probed ahead of the Roman Army played a key role in its campaigns of conquest masking its marching flanks and seeking to encircle enemies in battle However the original small cavalry arm provided by the citizen nobility had proved inadequate before the end of the Republic and Julius Caesar's cavalry was largely made up of hired allies During the Early Principate the armies under Augustus continued in this vein incorporating large numbers of non citizen auxiliary cavalry units The provinces came under increasing attack throughout and following the chaotic mid 3rd century and Rome took lessons from its barbarian enemies in how to improve its military mobility adopting both new heavily armoured shock cavalry and horse archers and vitally shaping the tactics employed during the Dominate In this engaging study Roman Army expert M C Bishop charts how the cavalry grew to become the dominant force in Roman field armies by the twilight of the Western Empire Eight newly commissioned artwork plates and a rich selection of artefact photographs and archaeological sources provide vivid detail and insight helping to bring to the life the evolving tactics clothing and weaponry of Rome's cavalry from the 2nd century BC through to the 5th century AD *The Cavalry of the Roman Republic* Jeremiah B. McCall, 2005-06-29 In this original and revealing work Jeremiah B McCall challenges the generally accepted view of the Roman cavalry and explores the fundamental connections between war and society in republican Rome c 300 100 BC McCall describes the citizen cavalry's equipment tactics and motivation in battle and argues for its effectiveness in the field This success is proof that it cannot finally have been disbanded for purely military reasons he shows that victories in the law courts and lavish displays of wealth came to supersede cavalry service as a way of building the reputations of the Roman elite The clear structure and fresh approach of

the book combining insights from both Roman military and social history will be useful to readers at all levels of study

**Roman Heavy Cavalry (2)** Andrei Evgenevich Negin, Raffaele D'Amato, 2020-11-26 In the twilight of the Western Roman Empire in the 5th 6th centuries the elite of the field armies was the heavy armoured cavalry the cataphracts clad in lamellar scale mail and padded fabric armour After the fall of the West the Greek speaking Eastern or Byzantine Empire survived for nearly a thousand years and cavalry remained predominant in its armies with the heaviest armoured regiments continuing to provide the ultimate shock force in battle Accounts from Muslim chroniclers show that the ironclad cataphract on his armoured horse was an awe inspiring enemy they advanced against you iron covered one would have said that they advanced on horses which seemed to have no legs This new study replete with stunning full colour illustrations of the various units offers an engaging insight into the fearsome heavy cavalry units that battled against the enemies of Rome's Eastern Empire
