Roman Frontiers Now:

Roman Frontiers in Britain David J. Breeze, 2013-10-10 Hadrian's Wall and the Antonine Wall defined the edge of the Roman Empire in Britain. Today the spectacular remains of these great frontier works stand as mute testimony to one of the greatest empires the world has ever seen. This new accessible account illustrated with 25 detailed photographs, maps and plans describes the building of the walls and reconstructs what life was like on the frontier. It places these frontiers into their context both in Britain and Europe, examining the development of frontier installations over four centuries. Designed for students and teachers of Ancient History or Classical Civilisation at school and in early university years, this series provides a valuable collection of guides to the history, art, literature, values and social institutions of the ancient world. *Frontiers of the Roman Empire: The African Frontiers* David J. Breeze, Sonja Jilek, David Mattingly, Alan Rushworth, Martin Sterry, Victoria Leitch, 2013-12-23 The Roman military remains in North Africa are remarkable in their variety and preservation. They include towers and forts, stretches of defensive lines of stone and earth with ditches broken by gates and roads, sitting amidst amazing scenery. Readers of this book will enjoy learning more about North Africa's remarkable Roman inheritance.

Roman Imperial Frontier in the West Julie Nelson, Steven K. Drummond, 2015-05-22 Imperial policy on the western frontier of the Roman Empire was the means by which the government controlled the frontier residents. This book takes a topical approach to this study of the frontier. Subjects covered include the army, farming, commerce, manufacturing, religion and Romanization. *Rome and Its Frontiers* C. R. Whittaker, 2004-07-31 This collection of essays on the frontiers of the Roman Empire, their physical significance and their relationship with the way the Romans viewed the world without and beyond the boundaries. *Roman Frontier Studies 2009* Nick Hodgson, Paul Bidwell, Judith Schachtmann, 2017-06-30

The handbook suggests new conceptual and methodological tools for researching ancient economic exchange in a global perspective with a strong focus on recent debates on the nature of pre-modern empires. The interdisciplinary team of Chinese, Indian and Graeco-Roman historians, archaeologists and anthropologists that has written this handbook compares different forms of economic development in agrarian and steppe regions in a period of accelerated empire formation during 300 BCE and 300 CE. It investigates inter-imperial zones and networks of exchange which were crucial for ancient Eurasian connections. Volume I provides a comparative history of the most important empires forming in Northern Africa, Europe and Asia between 300 BCE and 300 CE. It surveys a wide range of evidence that can be brought to bear on economic development.

Roman Empire Bunbury,1879 **Rome in the Third Century** Michael Sage,2025-01-31 An in depth exploration of Rome s third century crisis examining its internal turmoil external pressures and transformative reforms For its first two centuries the Roman Empire enjoyed a relatively peaceful existence There were short periods of trouble and instability but they had no lasting effect At the end of the second century AD the situation began to change and by the third century the Empire was beset by serious internal and external threats Rome in the Third Century examines this time of troubles Michael Sage begins by analyzing the available sources which are difficult to use and provide mostly fragmentary glimpses of the period and looks at the surprising disappearance of historical writing in the western half of the empire He then discusses in detail the increasing pressures on Rome s northern and eastern frontiers along with the growing internal threats that the empire faced as the state weakened and experienced increasing internal disintegration He then narrates the period between the death of the emperor Septimius Severus in 211 and the accession of the emperor Diocletian at the end of the century when a reformed empire emerged in many respects very different from its predecessor The crucial changes in government and the military of this period are explained and assessed and there is a new analysis of contemporary views both Christian and pagan of the crisis
