Roman Society in Gaul in the Merovingian Age Samuel Dill, 1926 *Roman Society in Gaul in the Merovingian Age* Samuel Dill, 1926 **Roman Society in Gaul in the Merovingian Age...** Samuel Dill, 1956 Early Medieval Europe 300-1050 David Rollason, 2018-03-29 *Early Medieval Europe 300 1050 A Guide for Studying and Teaching* empowers students by providing them with the conceptual and methodological tools to investigate the period Throughout the book major research questions and historiographical debates are identified and guidance is given on how to engage with and evaluate key documentary sources as well as artistic and archaeological evidence The book's aim is to engender confidence in creative and independent historical thought This second edition has been fully revised and expanded and now includes coverage of both Islamic and Byzantine history surveying and critically examining the often radically different scholarly interpretations relating to them Also new to this edition is an extensively updated and closely integrated companion website which has been carefully designed to provide practical guidance to teachers and students offering a wealth of reference materials and aids to mastering the period and lighting the way for further exploration of written and non written sources Accessibly written and containing over 70 carefully selected maps and images *Early Medieval Europe 300 1050* is an essential resource for students studying this period for the first time as well as an invaluable aid to university teachers devising and delivering courses and modules on the period *Poems to Friends* Venantius Fortunatus, 2010-09-15 Owing to the rich storehouse of information it contains the poetry of Venantius Fortunatus c 535 600 has long been mined as a historical source for Merovingian society a focus that overshadows an appreciation of the poems literary value This volume offering free verse translations of Fortunatus personal poetry remains faithful to the historical sweep of the poet's lines while paying attention to the literary qualities that make these poems masterpieces of their kind The volume includes an overview of late antique Gaul Fortunatus biography interpretations of the poems prosopographical introductions maps bibliography and indices **The Battle of Vouillé, 507 CE** Ralph W. Mathisen, Danuta Shanzer, 2012-07-04 This volume highlights the heretofore largely neglected Battle of Vouill in 507 CE when the Frankish King Clovis defeated Alaric II the King of the Visigoths Clovis victory proved a crucial step in the expulsion of the Visigoths from Francia into Spain thereby leaving Gaul largely to the Franks It was arguably in the wake of Vouill that Gaul became Francia and that France began The editors have united an international team of experts on Late Antiquity and the Merovingian Kingdoms to reexamine the battle from multiple as well as interdisciplinary perspectives The contributions address questions of military strategy geographical location archaeological footprint political background religious propaganda consequences both in Francia and in Italy and significance There is a strong focus on the close reading of primary source material both textual and material secular and theological *The Middle Ages* Edward Maslin Hulme, 1929 **The Early Medieval World** Michael Frassetto, 2013-03-14 This book examines a pivotal period in ancient human history the fall of the Roman Empire and the birth of a new European

civilization in the early Middle Ages The Early Medieval World From the Fall of Rome to the Time of Charlemagne addresses the social and material culture of this critical period in the evolution of Western society covering the social political cultural and religious history of the Mediterranean world and northern Europe The two volume set explains how invading and migrating barbarian tribes spurred by raiding Huns from the steppes of Central Asia contributed to the fall of the Western Roman Empire and documents how the blending of Greco Roman Germanic and Christian cultures birthed a new civilization in Western Europe creating the Christian Church and the modern nation state A Z entries discuss political transformation changing religious practices in daily life sculpture and the arts material culture and social structure and provide biographies of important men and women in the transitional period of late antiquity The work will be extremely helpful to students learning about the factors that contributed to the decline of the Roman Empire an important and common topic in world history curricula

Urban Interactions Michael J. Kelly, Michael Burrows, 2020 This volume is dedicated to eliciting the interactions between localities across late antique and early medieval Europe and the wider Mediterranean Significant research has been done in recent years to explore how late Roman and post Roman cities towns and other localities communicated vis vis larger structural phenomena such as provinces empires kingdoms institutions and so on This research has contributed considerably to our understanding of the place of the city in its context but tends to portray the city as a necessarily subordinate conduit within larger structures rather than an entity in itself or as a hermeneutical object of enquiry Consequently not enough research has been committed to examining how local people and communities thought about engaged with and struggled against nearby or distant urban neighbors Urban Interactions addresses this lacuna in urban

history by presenting articles that apply a diverse spectrum of approaches from archaeological investigation to critical analyses of historiographical and historical biases and developmental consideration of antagonisms between ecclesiastical centers Through these avenues of investigation this volume elucidates the relationship between the urban centers and their immediate hinterlands and neighboring cities with which they might vie or collaborate This entanglement and competition whether subterranean or explicit across overarching political religious or other macro categories is evaluated through a broad geographical range of late Roman provinces and post Roman states to maintain an expansive perspective of developmental trends within and about the city
