Joseph,2013-03-21 Its a troubled world we live in It was meant to be utopia yet we are busy messing it up At all levels of government we seem to do our best to throw a monkey wrench at the

system we devised for our good not our own hurt The legislators are ever busy opposing each other yet expect to run the day to day affairs smoothly The American fathers of the constitution chose the least of evil of all forms of government but the element of human nature seems to make it at best a dysfunctional system on many levels Without an agreed upon system of values accepted by all members of society its impossible to run a smooth government as it is prerequisite for the function of life Since education is the basis that determines the outcome of life we shall concentrate on this dimension that leads to either success or failure in all areas To begin our search for the causes that create a utopian society we shall address first roll of the parents especially the mother in the success or failure of a human beings Next we shall go to the school system the surrogate parent and examine its roll in molding the young plants our children Finally we shall address the roll of the society at large In these three areas we shall find the causes of success and failures of life Then we shall proceed to the solutions that will insure the way to success in all areas the dreamed of utopia Utopia is possible We dont have to be ridden with the ills of society with crime with violence with wars with political corruption In the beginning it was not so in the end it can and will be different if we are willing to submit to the process of re education all is possible *The New Prometheans* Courtenay Raia,2019-12-04

The Society for Psychical Research was established in 1882 to further the scientific study of consciousness but it arose in the surf of a larger cultural need Victorians were on the hunt for self understanding Mesmerists spiritualists and other romantic seekers roamed sunken landscapes of entrancement and when psychology was finally ready to confront these altered states psychical research was adopted as an experimental vanguard Far from a rejected science it was a necessary heterodoxy probing mysteries as diverse as telepathy hypnosis and even s ance phenomena Its investigators sought facts far afield of physical laws evidence of a transcendent irreducible mind The New Prometheans traces the evolution of psychical research through the intertwining biographies of four men chemist Sir William Crookes depth psychologist Frederic Myers ether physicist Sir Oliver Lodge and anthropologist Andrew Lang All past presidents of the society these men brought psychical research beyond academic circles and into the public square making it part of a shared far reaching examination of science and society By layering their papers textbooks and lectures with more intimate texts like diaries letters and literary compositions Courtenay Raia returns us to a critical juncture in the history of secularization the last great gesture of reconciliation between science and sacred truths *Lamentations, Song of Songs* Wilma
