**Romanesque** T. O'Keefe, 2015-03-02 Romanesque is the style name given to the art and architecture of Europe in the eleventh and twelfth centuries First used in the early nineteenth century to express the perceived indebtedness of the visual artistic and architectural cultures of this period to their Classical antecedents the term has survived two centuries of increasingly sophisticated readings of the relevant medieval buildings and objet d art The study of Romanesque as a stylistic phenomenon is now almost exclusively the preserve of art historians particularly in the English speaking world Here the Romanesque is subjected to a long overdue theoretically informed archaeological inquiry The ideological foundations and epistemological boundaries of Romanesque scholarship are critiqued and the constructs of Romanesque and Europe are deconstructed and alternative strategies for interpreting Romanesque s constituent material are mapped out This book should at the very least illuminate the need for debate **Romanesque Patrons and Processes** Jordi Camps, Manuel Castiñeiras, John McNeill, Richard Plant, 2018-03-09 The twenty five papers in this volume arise from a conference jointly organised by the British Archaeological Association and the Museu Nacional d Art de Catalunya in Barcelona They explore the making of art and architecture in Latin Europe and the Mediterranean between c 1000 and c 1250 with a particular focus on questions of patronage design and instrumentality No previous studies of patterns of artistic production during the Romanesque period rival the breadth of coverage encompassed by this volume both in terms of geographical origin and media and in terms of historical approach Topics range from case studies on Santiago de Compostela the Armenian Cathedral in Jerusalem and the Winchester Bible to reflections on textuality and donor literacy the culture of abbatial patronage at Saint Michel de Cuxa and the re invention of slab relief sculpture around 1100 The volume also includes papers that attempt to recover the procedures that coloured interaction between artists and patrons a serious theme in a collection that opens with Function condition and process in eleventh century Anglo Norman church architecture and ends with a consideration of The death of the patron A Companion to Medieval Art Conrad Rudolph, 2019-01-31 A fully updated and comprehensive companion to Romanesque and Gothic art history This definitive reference brings together cutting edge scholarship devoted to the Romanesque and Gothic traditions in Northern Europe and provides a clear analytical survey of what is happening in this major area of Western art history The volume comprises original theoretical historical and historiographic essays written by renowned and emergent scholars who discuss the vibrancy of medieval art from both

thematic and sub disciplinary perspectives Part of the Blackwell Companions to Art History A Companion to Medieval Art Second Edition features an international and ambitious range of contributions covering reception formalism Gregory the Great pilgrimage art gender patronage marginalized images the concept of spolia manuscript illumination stained glass Cistercian architecture art of the crusader states and more Newly revised edition of a highly successful companion including 11 new articles Comprehensive coverage ranging from vision materiality and the artist through to architecture sculpture and painting Contains full color illustrations throughout plus notes on the book's many distinguished contributors A Companion to Medieval Art Romanesque and Gothic in Northern Europe Second Edition is an exciting and varied study that provides essential reading for students and teachers of Medieval art

**Romanesque Art** George Zarnecki, 1971 **Romanesque Architecture** Hans Erich Kubach, 1988 The Romanesque Xavier Barral i Altet, 1998 Originated by art theorists in the Nineteenth Century the term Romanesque refers to a school of religious architecture and design from the early medieval period As with all terms that attempt to summarise an epoch Romanesque artificially constructs the notion of one unified style but as this book makes clear the Romanesque tendency consisted of many different eclectic characteristics The investigation back through time leads us across the ancient pilgrim routes of the Pyrenees and then into a vast range of devotional structures churches tombs monuments cathedrals and basilicas Each one carries its own regional imprint and spiritual iconography Containing rigorously detailed and comprehensive insights into all aspects of Romanesque symbolism and ritual this book includes analysis of liturgical equipment and explores the significance of many features of the buildings A fascinating mystical quest that forms the second volume in this acclaimed series on Medieval architecture

Carolingian and Romanesque Architecture, 800 to 1200 Kenneth John Conant, 1959 Professor Conant's detailed studies of Santiago de Compostela and of the abbey church at Cluny fit him for this account of building in the period of the round arch which preceded Gothic In this volume he shows how at the instigation of the monasteries during the little renaissance of Charlemagne Roman methods of construction were revived and fused with local traditions to produce a distinctive Carolingian manner and how such monuments as the Palatine Chapel at Aachen already contained hints of the nobler and more mature Romanesque style which was to become international professor Conant extends his survey to cover the regions of medieval France Spain Portugal the Holy Land Italy Germany Northern Europe and Britain

*Romanesque Renaissance* Konrad Adriaan Ottenheym, 2021-01-11 In early modern times scholars and architects investigated age old buildings in order to look for useful sources of inspiration They too occasionally misinterpreted younger buildings as proofs of majestic Roman or other ancient glory such as the buildings of the Carolingian Ottonian and Stauffer emperors But even if the correct age of a certain building was known buildings from c 800 1200 were sometimes regarded as Antique architecture since the concept of Antiquity was far more stretched than our modern periodisation allows This was a Europe wide phenomenon The results

are rather diverse in style but they all share an intellectual and artistic strategy a conscious revival of an ancient architecture whatever the date and origin of these models Contributors Barbara Arciszewska Lex Bosman Ian Campbell Eliana Carrara Bianca de Divitiis Krista De Jonge Emanuela Ferretti Emanuela Garofalo Stefaan Grieten Hubertus G nther Stephan Hoppe Sanne Maekelberg Kristoffer Neville Marco Rosario Nobile Konrad Ottenheym Stefano Piazza and Richard Schofield

**Architecture and the Concept of Romanesque** Tadhg O’Keeffe,2024-02-28 This book presents a fresh perspective on eleventh and twelfth century Irish architecture and a critical assessment of the value of describing it and indeed contemporary European architecture in general as Romanesque Medieval Irish Architecture and the Concept of Romanesque is a new and original study of medieval architectural culture in Ireland The book s central premise is that the concept of a Romanesque style in eleventh and twelfth century architecture across Western Europe including Ireland is problematic and that the analysis of building traditions of that period is not well served by the assumption that there was a common style Detailed discussion of important buildings in Ireland a place marginalised within the Romanesque model reveals the Irish evidence to be intrinsically interesting to students of medieval European architecture for it is evidence which illuminates how architectural traditions of the Middle Ages were shaped by balancing native and imported needs and aesthetics often without reference to Romanitas This book is for specialists and students in the fields of Romanesque medieval archaeology medieval architectural history and medieval Irish studies *The Art of the West in the Middle Ages: Romanesque art* Henri

Focillon,1963 The present work is more than a history of Western medieval art it is an aesthetic exploration into the development of medieval style particularly as it is expressed itself in architecture and architectural decoration The illustrations which accompany the text are designed to provide a visual complement to the author s instructive analyses and stimulating ideas From publisher s description Prehistoric art ; ancient art and architecture; eastern, early Christian, Byzantine, Saracenic, Romanesque, Gothic, and renaissance architecture and ornament.-[v. 2] Pottery; enamels; ivories; metal-work; furniture; textile fabrics; mosaics; glass; and book decoration James Ward,1909 **Romanesque** Rolf

Toman,2015-04-30 This volume helps us understand and even experience the manifold aspects of Romanesque artistic composition *Romanesque Art and Architecture* ,1978 **Romanesque Art** Victoria Charles,Klaus Carl,2023-12-28 In art history the term Romanesque art distinguishes the period between the beginning of the 11th and the end of the 12th century This era showed a great diversity of regional schools each with their own unique style In architecture as well as in sculpture Romanesque art is marked by raw forms Through its rich iconography and captivating text this work reclaims the importance of this art which is today often overshadowed by the later Gothic style **Romanesque** Jordi Camps,Manuel A.

Castiñeiras,John McNeill,Richard Plant,2018 The twenty five papers in this volume arise from a conference jointly organised

by the British Archaeological Association and the Museu Nacional d'Art de Catalunya in Barcelona. They explore the making of art and architecture in Latin Europe and the Mediterranean between c. 1000 and c. 1250 with a particular focus on questions of patronage, design and instrumentality. No previous studies of patterns of artistic production during the Romanesque period rival the breadth of coverage encompassed by this volume both in terms of geographical origin and media and in terms of historical approach. Topics range from case studies on Santiago de Compostela, the Armenian Cathedral in Jerusalem and the Winchester Bible to reflections on textuality and donor literacy, the culture of abbatial patronage at Saint Michel de Cuxa and the re-invention of slab relief sculpture around 1100. The volume also includes papers that attempt to recover the procedures that coloured interaction between artists and patrons, a serious theme in a collection that opens with 'Function, condition and process in eleventh-century Anglo-Norman church architecture' and ends with a consideration of 'The death of the patron'.
