**Biolinguistics** Lyle Jenkins, 2000. This book investigates the nature of human language and its importance for the study of the mind. In particular, it examines current work on the biology of language. Lyle Jenkins reviews the evidence that language is best characterized by a generative grammar of the kind introduced by Noam Chomsky in the 1950s and developed in various directions since that time. He then discusses research into the development of language which tries to capture both the underlying universality of human language as well as the diversity found in individual languages. Universal Grammar. Finally, he discusses a variety of approaches to language design and the evolution of language. An important theme is the integration of biolinguistics into the natural sciences, the unification problem. Jenkins also answers criticisms of the biolinguistic approach from a number of other perspectives including evolutionary psychology, cognitive science, connectionism, and ape language research, among others.

**Falling in Love** Ayala Pines, Ayala Malach Pines, 2013-05-13. Falling in Love is the first book to unlock the mysteries of how and why we fall in love. Renowned psychologist Ayala Pines shows us why we fall for the people we do and argues convincingly that we love neither by chance nor by accident. She offers sound advice for making the right choices when it comes to this complicated emotion. Packed with helpful suggestions for those seeking love and those already in it, this book is about love's many puzzles. The second edition furthers the work of the popular and successful first edition. With expanded research, theory, and practice, this book once again provides one of a kind understandings of the experience of love. The new edition offers updated references to recent research, new chapter exercises, and case examples of romantic stories to begin each chapter.
