Romanticism And Colonialism:

Romanticism and Colonial Disease Alan Bewell, 2003-05-22 Colonial experience was profoundly structured by disease as expansion brought people into contact with new and deadly maladies Pathogens were exchanged on a scale far greater than ever before Native populations were decimated by wave after wave of Old World diseases In turn colonists suffered disease and mortality rates much higher than in their home countries Not only disease but the idea of disease and the response to it deeply affected both colonizers and those colonized In *Romanticism and Colonial Disease* Alan Bewell focuses on the British response to colonial disease as medical and literary writers in a period roughly from the end of the eighteenth century to the middle of the nineteenth century grappled to understand this new world of disease Bewell finds this literature characterized by increasing anxiety about the global dimensions of disease and the epidemiological cost of empire Colonialism infiltrated the heart of Romantic literature affecting not only the Romantics framing of disease but also their understanding of England's position in the colonial world The first major study of the massive impact of colonial disease on British culture during the Romantic period *Romanticism and Colonial Disease* charts the emergence of the idea of the colonial world as a pathogenic space in need of a cure and examines the role of disease in the making and unmaking of national identities **Romanticism**

Romanticism and the Question of the Stranger David Simpson, 2024-05-31 In our post 9/11 world the figure of the stranger the foreigner the enemy the unknown visitor carries a particular urgency and the force of language used to describe those who are different has become particularly strong But arguments about the stranger are not unique to our time In Romanticism and the Question of the Stranger David Simpson locates the figure of the stranger and the rhetoric of strangeness in romanticism and places them in a tradition that extends from antiquity to today Simpson shows that debates about strangers loomed large in the French Republic of the 1790s resulting in heated discourse that weighed who was to be welcomed and who was to be proscribed as dangerous Placing this debate in the context of classical biblical and other later writings he identifies a persistent difficulty in controlling the play between the despised and the desired He examines the stranger as found in the works of Coleridge Austen Scott and Southey as well as in depictions of the betrayals of hospitality in the literature of slavery and exploration as in Mungo Park's Travels and Stedman's Narrative and portrayals of strange women in de Sta l Rousseau and Burney Contributing to a rich strain of thinking about the stranger that includes interventions by Ricoeur and Derrida Romanticism and the Question of the Stranger reveals the complex history of encounters with alien figures and our continued struggles with romantic concerns about the unknown

Romantic Imperialism Saree Makdisi, 1998-04-16 The years between 1790 and 1830 saw over a hundred and fifty million people brought under British imperial control and one of the most momentous outbursts of British literary and artistic production announcing a new world of social and individual traumas and possibilities This book traces the emergence of new forms of imperialism and capitalism as part of a culture of

modernisation in the late eighteenth and early nineteenth century and looks at the ways in which they were identified with and contested in Romanticism Saree Makdisi argues that this process has to be understood in global terms beyond the British and European viewpoint and that developments in India Africa and the Arab world up to and including our own time enable us to understand more fully the texts and contexts of British Romanticism New and original readings of texts by Wordsworth Blake Byron Shelley and Scott emerge in the course of this searching analysis of the cultural process of globalisation Choice Outstanding Academic Book of 1998 **Teaching Romanticism** D. Higgins, S. Ruston, 2010-01-13 Romanticism is taught at universities across the globe and is considered integral to the study of British and European literature This book written by leading academics presents innovative practical approaches to teaching traditional and newer aspects of the curriculum and is essential to anyone teaching Romanticism at university level *Nature, Neo-colonialism, and the Spanish American Regional Writers* Jennifer French, 2005 A searching interdisciplinary critical consideration of the cultural economic and environmental ramifications of Britain's informal imperialism in South America **Women, Epic, and Transition in British Romanticism** Elisa Beshero-Bondar, 2011-05-31 Women Epic and Transition in British Romanticism argues that early nineteenth century women poets contributed some of the most daring work in modernizing the epic genre The book examines several long poems to provide perspective on women poets working with and against men in related efforts contributing together to a Romantic movement of large scale genre revision Women poets challenged longstanding categorical approaches to gender and nation in the epic tradition and they raised politically charged questions about women's importance in moments of historical crisis Anthropology and Colonialism in Asia Jan van Bremen, Akitoshi Shimizu, 2013-03-07 For a time it was almost a cliché to say that anthropology was a handmaiden of colonialism by which was usually meant Western colonialism And this insinuation was assumed to somehow weaken the theoretical claims of anthropology and its fieldwork achievements What this collection demonstrates is that colonialism was not only a Western phenomenon but Eastern as well And that Japanese or Chinese anthropologists were also engaged in studying subject peoples But wherever they were and whoever they were anthropologists always had a complex and problematic relationship with the colonial state The latter saw some anthropologists sympathy for the natives as a threat while on the other hand anthropological knowledge was used for the training of colonial officials The impact of the colonial situation on the formation of anthropological theories is an important if not easily answered question and the comparison of experiences in Asia offered in this book further helps to illuminate this complex relationship **Anthropology and Colonialism in Asia and Oceania** Jan van Bremen, Akitoshi Shimizu, 1999 This study demonstrates that colonialism was not only a western phenomenon Japanese and Chinese anthropologists also studied subject peoples Comparison of experiences further helps to illuminate this complex relationship Romantic Feuds Kim Wheatley, 2016-04-08 Romantic writers such as Robert Southey and Samuel Taylor Coleridge aspired to rise above the so called age of personality a new culture of politicized print gossip and personal

attacks Nevertheless Southey Coleridge and other Romantic era figures such as Leigh Hunt William Hazlitt Sydney Owenson and the explorer John Ross became enmeshed in lively feuds with the major periodicals of the day the Edinburgh Review and the Quarterly Review Kim Wheatley focuses on feuds from the second and third decades of the nineteenth century suggesting that by this time the vituperative rhetoric of the Edinburgh and the Quarterly had developed into what Coleridge called a habit of malignity Attending to the formal strategies of the reviewers surprisingly creative prose she traces how her chosen feuds take on lives of their own branching off into other print media including the weekly press and monthly magazines Ultimately Wheatley shows these hostile exchanges incorporated literary genres and Romantic themes such as the idealized poetic self the power of the supernatural and the quest for the sublime By turning episodes of print warfare into stories of transfiguration the feuds thus unexpectedly contributed to the emergence of Romanticism

Recognition Politics in Settler Colonial States Emile Badarin, 2025-06-26 Using Palestine as a case study Recognition Politics in Settler Colonial States shows how recognition politics operate to legitimize long standing colonial power structures In existing scholarship recognition has been seen as an asset coveted by indigenous communities This book forwards a new theoretically ground breaking perspective Emile Badarin shows that in colonial contexts settlers use recognition to legitimize and normalize the dispossession and elimination of Indigenous people More than this settler colonial states themselves actively pursue recognition employing it as a means to further the elimination of the indigenous societies they seek to replace In making the case the book critically examines the Euromodern categories of race racism and racial hierarchies and draws new conclusions about the interplay between colonialism racism and Zionism Central to this analysis is how anti Zionism has been strategically equated with anti Semitism and effectively used as a tool for the advancement of both settler colonialism in Palestine and Israel s recognition on the international stage The book delves into indigenous normative resistance against colonial recognition politics through the lens of the Palestinian practice of *umud* steadfastness extracting its philosophy of liberation as a pathway towards a decolonial future for all in Palestine and beyond
