

Sveriges Kungar/Regenter

2

A collage of historical Swedish monarchs and regents in 18th-century attire, set against a background of a grand building with arched windows. The figures are arranged in a group, with some in the foreground and others slightly behind. The background building has a classical facade with multiple arched windows, some of which are illuminated from within. The overall color palette is dark, with the figures' clothing providing contrast.

Romantikens Kvinnor Studier I Det Tidiga 1800talets Litteratur:

Swedish Women's Writing 1850-1995 Helena Forsas-Scott,2000-12-01 Provides a survey of women s writing in Sweden from the beginnings of the struggle for emancipation in the 1850s to the present day These writers are seen within the political cultural and economic context of women s lives Modern critical currents are also assessed and Swedish feminist criticism is considered alongside the French and American traditions Nordic Literature Steven P. Sondrup,Mark B. Sandberg,Thomas A. DuBois,Dan Ringgaard,2017-12-15 Nordic Literature A comparative history is a multi volume comparative analysis of the literature of the Nordic region Bringing together the literature of Finland continental Scandinavia Sweden Norway Denmark and S pmi and the insular region Iceland Greenland and the Faroe Islands each volume of this three volume project adopts a new frame through which one can recognize and analyze significant clusters of literary practice This first volume Spatial nodes devotes its attention to the changing literary figurations of space by Nordic writers from medieval to contemporary times Organized around the depiction of various scapes and spatial practices at home and abroad this approach to Nordic literature stretches existing notions of temporally linear nationally centered literary history and allows questions of internal regional similarities and differences to emerge more strongly The productive historical contingency of the North as a literary space becomes clear in this close analysis of its literary texts and practices
