Valerie M. Hope, 2025-06-12 To date mourning has not featured prominently in studies of ancient Roman society and this book redresses this by presenting a comprehensive analysis of who mourners were and what mourners did as well as investigating the social cultural and ritual significance of mourning It brings together varied evidence ranging from literature and art to epigraphy which helps to illustrate the rituals of mourning Valerie M Hope addresses fundamental questions about how mourning was expressed displayed performed and experienced via the body and in turn what mourning can reveal about Roman society In previous literature on the topic roles played by mourners in funeral rituals and commemorative acts may be acknowledged but there has been little engagement with the varied emotional and physical behaviours of mourners When mourning has been considered the emphasis has predominantly fallen on gender and specific literary genres There have hitherto been few attempts to unite the diverse evidence for Roman mourning to consider different literary genres simultaneously or to evaluate how mourning was presented through material culture The evaluation of social expectations legal regulations and idealised roles across a diverse evidence base and time frame make this volume the first full and systematic study of mourning in the Roman world **The Oxford Companion to Classical Literature** M.C.

**Processes of Cultural Change and Integration in the Roman World** ,2015-06-29  
*Processes of Cultural Change and Integration in the Roman World* is a collection of studies on the interaction between Rome and the peoples that became part of its Empire between c 300 BC and AD 300 The book focuses on the mechanisms by which interaction between Rome and its subjects occurred e.g the settlements of colonies by the Romans army service economic and cultural interaction In many cases Rome exploited the economic resources of the conquered territories without allowing the local inhabitants any legal autonomy However they usually maintained a great deal of cultural freedom of expression Those local inhabitants who chose to engage with Rome its economy and culture could rise to great heights in the administration of the Empire

**The Coming Struggle with Rome, Not Religious But Political; Or, Words of Warning to the English People** Pierce Connelly,1852     *The Encyclopaedia Britannica* Hugh Chisholm,1911     **The Encyclopaedia Britannica** Hugh Chisholm,1911     **Who's who in Art** Bernard Dolman,1984     **Delineation of Roman Catholicism, ... in which the peculiar doctrines ... of the Church of Rome are stated, and confuted** Charles ELLIOTT (D.D.),1844     *Light Infantry of the Greek and Roman World* Jean Charl du Plessis,2024-10-30

Ancient accounts of battle often neglected the role of lightly armed infantry presenting the deeds of the heavy infantry such as Greek hoplites or Roman legionaries or dashing cavalry charges as the decisive battle winners This bias was partly due to the light infantry typically being drawn from the poorer sections of society who could not afford to equip themselves with armor and because they generally fought from a distance killing from afar with missile weapons not bravely face to face like heroes worthy of recording Modern research has generally followed this bias Dr Jean Charl Du Plessis argues that while light infantry might have had a subordinate role in pitched battles such clashes were relatively rare occurrences Most ancient campaigns consisted mostly of foraging raiding and pillaging of enemy territory minor skirmishes and ambushes all roles in which light infantry excelled In particular they were indispensable for an army traversing mountainous or forested terrain Moreover he shows that even in pitched battles they were far from useless and made a valuable contribution typically harassing the enemy as they deployed and screening friendly battle lines from similar treatment Some such as Cretan archers or Balearic slingers were highly sought after specialists Uniquely the author draws on years of practical experimentation to demonstrate and test the various weapons used slings bows and javelins including the use of the amentum throwing strap This yields fresh evidence and insights into matters such as range penetrative power and the level of skill and practice required Overall this is a valuable study of these forgotten heroes of ancient warfare
