Roof Of The World Mans First Flight Over Everest:

Roof of the World Lord James Douglas-Hamilton, 2013-02-08 On the morning of 3 April 1933 two single engine biplanes set off on a flight into history From their base near the Indian border with the mystery country of Nepal the two young pilots one a British Marquis and a Scottish Member of Parliament the other a dynamic flight commander flew towards as great a challenge as world aviation had faced to date Mount Everest Roof of the World The first flight over Everest was the climax of years of thought and months of intensive planning an epoch making event which caught the imagination of millions News of its success reverberated throughout the British Empire to the world at large Among the deluge of telegrams of congratulations received were those from the King and the Prime Minister The Times of London which had given exclusive coverage of the Expedition since its early days carried one of its longest features ever and was excited enough to comment that the achievement was almost like exploring the rainbow Some half a century later that Houston Mount Everest Expedition takes its place as one of the last great pioneering flights before the era of space travel Roof of the World tells the remarkable story of that flight and its repercussions among which were the growth of the British aviation industry and the creation of the country's second international airport Using rare and unique photographs many taken from the flight itself and giving an idea of the qualities required of the crews Lord James Douglas Hamilton has recreated the scene facing the pilots one of whom was his father He has had access to relevant diaries and personal papers presents in Roof of the World a valuable contribution to our understanding of a unique achievement in an eventful decade Fallen Giants Maurice Isserman, Stewart Angus Weaver, Dee Molenaar, 2010-01-01 In the first comprehensive history of Himalayan mountaineering in 50 years the authors offer detailed original accounts of the most significant climbs since the 1890s and they compellingly evoke the social and cultural worlds that gave rise to those expeditions **American Daredevil** Cathryn J. Prince, 2016-06-01 With a polished walking stick and neatly pressed trousers Richard Halliburton served as an intrepid globetrotting guide for millions of Americans in the 1920s and 30s Readers waited with bated breath for each new article and book he wrote During his career Halliburton climbed the Matterhorn nearly fell out of his plane while shooting the first aerial photographs of Mount Everest and became the first person to swim the full length of the Panama Canal With his matinee idol looks the Tennessee native was a media darling in an era of optimism and increased social openness But as the Great Depression and looming war pushed America toward social conservatism Halliburton more actively worked to hide his homosexuality burnishing his image as a masculine trailblazer No middle ground existed regarding Halliburton he was either adored or abhorred Ernest Hemingway and F Scott Fitzgerald called the Princeton graduate a poseur a symbol of nouveau riche depravity But most found his daredevil persona irresistible As chronicled in **American Daredevil** Halliburton harnessed the media of his day to gain and maintain a widespread following long before our age of the twenty four hour news cycle and thus became the first adventure journalist And during the darkest hours of the Great Depression Halliburton did something
