Excerpt from The Manufacture of Roofing Tiles Fig 3 Robinson's Tile made at Germantown Ohio about 1814 To the right in the picture stands a corner of the new library building upon which can be seen roofing tiles of modern manufacture A more striking contrast could scarcely have been found the one tile showing the marks of time and the primitive methods of manufacture of a century ago while the other presents a roof of the present day The Robinson tile at Germantown was probably a sporadic case only and does not probably stand for the introduction of the industry as we have no evidence that he manufactured tiles for other than his own needs About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **The Roof Beautiful**
