The Root and the Flower Samuel Rubinoff,1970 The Rod, the Root, and the Flower (Classic Reprint) Coventry Patmore,2017-09-17 Excerpt from The Rod the Root and the Flower IF St Augustine found it necessary to publish fourteen books of Retractations it is not likely but that I have in the following pages erred in some points at least verbally but I am the more likely to be exempt from considerable error inasmuch as I make no ridiculous pretence of invading the province of the theologian by defining or explaining dogma This I am content with implicitly accepting my work being mainly that of the Poet bent only upon discovering and reporting how the loving hint of doctrine has met the longing guess of the souls of those who have so believed in the Unseen that it has become visible and who have thenceforward found their existence to be no longer a sheath without a sword a desire without fulfilment The steam hammer of that Intellect which could be so delicately adjusted to its task as to be capable of either crushing a Hume or cracking a Kingsley is no longer at work that tongue which had the weight of a hatchet and the edge of a razor is silent but its mighty task of so representing truth as to make it credible to the modern mind when not interested in unbelief has been done I only report the cry which certain babes in Christ have uttered Taste and see that the Lord is sweet And far be it from me to pose as other than a mere reporter using the poetic intellect and imagination so as in part to conceive those happy realities of life which in many have been and are an actual and abiding possession and to express them in such manner that thousands who lead beautiful and substantially Catholic lives whether outside or within the visible Church may be assisted in the only true learning which is to know better that which they already know About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art
