In fact he argues the more stable a liberal democracy the less freedom of action for transformal leadership Anton Pelinka uses a wellspring of historical fact to argue that politics always means having to choose between the lesser of two evils and that democracy reduces any possibility of personal leadership According to Pelinka Jaruzelski s politics of democratization in Poland in the 1980s which led to the first free and competitive elections in a communist system illustrate personal leadership hampered by democracy Jaruzelski initiated the roundtable process that transformed Poland into a democracy yet this process ultimately ended with his abdication Pelinka further emphasizes contradictions between transformal leadership and democracy by comparing the leadership styles of Hitler Stalin and Mao He de scribes collaboration resistance and tensions between domestic and international leadership using the American examples of Presidents Wilson Roosevelt Kennedy Johnson and Nixon and the European examples of Petain and Churchill Pelinka then turns to the tragic fate of the Judenrate under the Nazi regime to illustrate the lesser evil approach He closes with a discussion of moral leadership and how abstaining from office just as Gandhi and King did may be particularly suited to stable democracies Pelinka s unique use of rich empirical evidence from twentieth century history is this volume s hallmark He is critical of mainstream political theory and its neglect of deviant examples of democracies such as Switzerland Italy and Japan where there is traditionally much less emphasis placed on leadership Pelinka s noteworthy study will be essential reading for political scientists and theorists political philosophers and political sociologists with special interest in political ethics and contemporary historians
