Garip,2019-05-28 Why do Mexicans migrate to the United States Is there a typical Mexican migrant Beginning in the 1970s survey data indicated that the average migrant was a young unmarried man who was poor undereducated and in search of better employment opportunities This is the general view that most Americans still hold of immigrants from Mexico On the Move argues that not only does this view of Mexican migrants reinforce the stereotype of their undesirability but it also fails to capture the true diversity of migrants from Mexico and their evolving migration patterns over time Using survey data from over 145 000 Mexicans and in depth interviews with nearly 140 Mexicans Filiz Garip reveals a more accurate picture of Mexico U S migration In the last fifty years there have been four primary waves a male dominated migration from rural areas in the 1960s and 70s a second migration of young men from socioeconomically more well off families during the 1980s a migration of women joining spouses already in the United States in the late 1980s and 90s and a generation of more educated urban migrants in the late 1990s and early 2000s For each of these four stages Garip examines the changing variety of reasons for why people migrate and migrants perceptions of their opportunities in Mexico and the United States Looking at Mexico U S migration during the last half century On the Move uncovers the vast mechanisms underlying the flow of people moving between nations      *Moving To A Small Town* Wanda Urbanska, Frank Levering, 1996-06-24 Filled with charts worksheets and profiles of folks who've made the move and love it Moving to a Small Town is an inspirational guide book dedicated to helping you pinpoint your ideal small town and make your life there work permanently Thinking about leaving the city Or just wishing you could You're not alone America is undergoing a rural renaissance as countless thousands seek a simpler life and a safe comfortable community in which to start businesses raise families and eventually retire
