Embodied Aesthetics in Drama Education Matthew DeCoursey, 2018-12-13 If it is a good thing to use drama for education there must be something specific about drama that makes it good for the purpose It has power of some kind it makes things meaningful that would otherwise be meaningless or things memorable that would otherwise be forgettable Or perhaps it enables independent thought in an area that would otherwise become mere rote learning Many practitioners believe that drama has the power to develop learner autonomy or even to give learners power over their lives In the last twenty years a widespread view has developed that this something that creates the benefit of drama is aesthetics There are many views of aesthetics but what unites them is the special significance that art has for our lives This book is about the relation between aesthetics and education in the use of drama Within it philosophy appears as the essential connecting discipline between the practice of arts based education and our advancing knowledge of the interrelations of cognition emotion and embodiment Matthew DeCoursey argues that the power of dramatic art is to be found in its bodily emotional nature Drawing on recent work in the aesthetics of theatre he shows that much of the power of theatre can be attributed to a

specific range of ideas and techniques notably including double meaning making aesthetic focus and dramatic tension Finally the author relates different forms of drama education to different educational results holding that the conventional improvised forms are neither superior nor inferior to scripted theatre but merely serve different purposes Among those educational results discussed are the emancipation sought both by Ranciere and by many practitioners of applied theatre but also curricular areas including language education

could not accept that the spiritual way was only about faith in God She knew there were other factors There was something else going on that allowed her to connect to the no local phenomena It must have God in it but not as a man sitting in heaven controlling everything that is just a fairy story She decided to look at other ways to explain it and came to science physics quantum physics consciousness holographic universe particles waves and the max plank scale of energy connectedness and the unified field These subjects were scary and it has taken her forty five years of study personal experience and practice to understand enough to write this book in laymans terms easy reading for people like her She learned it understood it and then wrote it in her own words The groundwork is done and what has come out of it is this little book explaining how to break habits of a lifetime and understand the workings within that gave her the nonlocal awareness She has cut through the red tape and has achieved an understanding of nonlocal awareness information written in her own way Uncovering Violence

Amy Cottrill, 2021-10-26 It is no surprise that the Bible is filled with stories of violence having come into being through the crucible of trauma cultural conflict and warfare But the more obvious acts of physical or sexual violence in the Hebrew Bible often overshadow its subtler forms throughout Scripture and belie the variety of perspectives on violence embedded in biblical narratives This hinders readers ability to recognize the full spectrum of human engagement with violence both in texts and in their lived experiences Uncovering Violence Reading Biblical Narratives as an Ethical Project seeks to provide a theoretical vocabulary for the various forms that violence can take including textual violence interpretive violence moral injury and slow violence and to offer a fresh ethical reading of violence in the biblical text Focusing on four narratives from the Hebrew Bible Cottrill uses the approach of narrative ethics to lay out the many ways that stories can make moral claims on readers not by delivering a discrete lesson or takeaway but by making transformative contact with readers and involving them in a more embodied dialogue with the text Exploring the narratives of Jael s killing of Sisera the toxic masculinity of Samson environmental devastation and failures of legal systems in Ruth and Abigail s mediation with King David Uncovering Violence presents strategies for reading that allow for this close encounter In doing so it helps prepare readers to better recognize interpret and even respond to violence and its many effects within and beyond the text **Recovering the Self**

Victor Jeleniewski Seidler, 2013-01-11 This important book seeks to place questions of morality and justice at the heart of social theory By exploring the works of Marx Durkheim and Weber it shows the hidden complexities of a modernity too often identified with a unified vision of the rational self later to fall apart into fragments within postmodernity Reinstating the body and emotional life Seidler sets new terms for respect and equality showing ways the self is undermined in its sense of self worth and adequacy through the workings of relationships of power and subordination Drawing upon feminism and Critical Theory to question the allegedly straightforward opposition between essentialism and social constructionism Seidler places the issues of morality right into the centre of the self problem Through reinstating connections between the self and the historical adventures of socialism feminism masculinity ethnicity and autobiographically Jewish identity he shows the

intimate affinity between these different categories of experience Identities are not freely chosen but involve a coming to terms with histories of class race and gender Critical of postmodern theories in which anything goes and in which everything you see is relative this book is concerned with the reassertion of value and recovering a viable tradition in which we can again explore issues of freedom and social justice Our discussions have turned increasingly esoteric as they have sheltered in an intellectual cage which has been difficult to enter This book seeks to open up the cage and re establish the suspended conversation between social theory and the concerns of everyday life
