Long Life In California:

18 Long Lived Communities around the World Martin K. Ettington, This book is about communities and cities around the world where people live to very old ages It is divided into two groups Those communities who have the longest lived peoples in the world Lots of lifestyle and diet data is included for them The second group are another set of communities which have high average ages which people live to but are not quite the outliers that the first group is I ve also tried to provide some general lifestyle and diet guidelines to give an idea of why these places are different for longevity purposes The first four communities were also profiled in my book *Diets and Lifestyles of the World s Oldest Peoples* 32 Longevity Recipes which goes into lot of details about these four locations including traditional recipes Overall I think you will get a better idea of what the reasons are why people live a long time in these locations around the world which may give you ideas about adapting your lifestyle and diets to have maximum longevity Readjustments in Processing and Marketing Citrus Fruits

Howard S. Friedman Ph.D.,Leslie R. Martin Ph.D.,2011-03-03 Watch a video Watch a Fox News segment on The Longevity Project This landmark study which Dr Andrew Weil calls a remarkable achievement with surprising conclusions upends the advice we have been told about how to live to a healthy old age We have been told that the key to longevity involves obsessing over what we eat how much we stress and how fast we run Based on the most extensive study of longevity ever conducted The Longevity Project exposes what really impacts our lifespan including friends family personality and work Gathering new information and using modern statistics to study participants across eight decades Dr Howard Friedman and Dr Leslie Martin bust myths about achieving health and long life For example people do not die from working long hours at a challenging job many who worked the hardest lived the longest Getting and staying married is not the magic ticket to long life especially if you re a woman And it s not the happy go lucky ones who thrive it s the prudent and persistent who flourish through the years With questionnaires that help you determine where you are heading on the longevity spectrum and advice
