From the Introduction: The concept of One World is often a multi-colored tapestry into which sundry, if not contending, patterns can be woven for those of us who worked on this project. One World goes beyond the everyday notion of the globe as a physical geographic entity. Rather, we understand it as a universal idea, one that transcends national boundaries to comment on the most prevailing aspects of the human condition. This attempt to redefine the borders of the world we live in through the short story recognizes the many conflicting issues of race, language, economy, gender, and ethnicity which separate and limit us. We readily acknowledge, however, that regardless of our differences or the disparities in our stories, we are united by our humanity. We invite the reader on a personal journey across continents, countries, cultures, and landscapes to reflect on these beautiful, at times chaotic, renditions on the human experience. We hope the reach of this path will transcend the borders of each story and perhaps function as an agent of change. Welcome to our world.
