Cultural Geographies John Horton, Peter Kraftl, 2013-10-08 Cultural geography is a major, vibrant subdiscipline of human geography. Cultural geographers have done some of the most important, exciting, and thought-provoking, zesty work in human geography over the last half century. This book exists to provide an introduction to the remarkably diverse, controversial, and sometimes infuriating work of cultural geographers. The book outlines how cultural geography in its various forms provides a rich body of research about cultural practices and politics in diverse contexts. Cultural geography offers a major resource for exploring the importance of cultural materials, media, texts, and representations in particular contexts and is one of the most theoretically adventurous subdisciplines within human geography, engaging with many important lines of social and cultural theory. The book has been designed to provide an accessible, wide-ranging, and thought-provoking introduction for students studying cultural geography or specific topics within this subdiscipline. Through a wide range of case studies and learning activities, it provides an engaging introduction to cultural geography. **Better Books for**

In *Ethics in Everyday Places*, ethicist and geographer Tom Koch considers what happens when, as he puts it, you do everything right but know you've done something wrong. The resulting moral stress and injury, he argues, are pervasive in modern Western society. Koch makes his argument from the ground up.

from the perspective of average persons and through a revealing series of maps in which issues of ethics and morality are embedded The book begins with a general grounding in both moral stress and mapping as a means of investigation The author then examines the ethical dilemmas of mapmakers and others in the popular media and the sciences including graphic artists journalists researchers and social scientists Koch expands from the particular to the general from mapmaker and journalist to the readers of maps and news He explores the moral stress and injury in educational funding poverty and income inequality Why aren't we angry that one in eight fellow citizens lives in federally certified poverty transportation modeling seen in the iconic map of the London transit system and the hidden realities of exclusion and U S graft organ transplantation This uniquely interdisciplinary work rewrites our understanding of the nature of moral stress distress and injury and ethics in modern life Written accessibly and engagingly it transforms how we think of ethics personal and professional amid the often conflicting moral injunctions across modern society Copublished with Esri Press *Ordinary Matters* Lorraine Sim, 2016-10-20 The first major interdisciplinary study of the ordinary in modernist women's literature and photography that demonstrates how their alternative vision of the everyday extends and often complicates that of their male contemporaries as well as contemporary everyday life theory *ENC Focus*, 2000 **Narrating the Multispecies World** Michaela Fenske, 2025-04-17 In present times we are increasingly witnessing a loss of life especially among animals and plants Some species are becoming extinct while others struggle to adjust to new habitats Human beings are looking for strategies to overcome the effects of climate change and mass extinction The contributors to this volume reflect on how the current problems affect the living world Artists and scholars from around the world share their views on the changes and challenges produced by the effects of the ecological crises in a variety of regions While some of their stories concern loss others offer hope by suggesting new ideas for living together in sustainable harmony within a multispecies world

Tourists, Signs and the City Michelle M. Metro-Roland, 2016-02-24 Drawing upon the literature of landscape geography tourism studies cultural studies visual studies and philosophy this book offers a multi disciplinary approach to understanding the interaction between urban environments and tourists This is a necessary prerequisite for cities as they make themselves into enticing destinations and compete for tourists attention It argues that tourists make sense of and draw meaningful conclusions about the places in which they tour based upon the interpretation of the signs or elements encountered within the built environment elements such as graffiti and lamp posts The writings of the American pragmatist Charles S Peirce on interpretation provide the theoretical model for explaining the way in which mind and world or thoughts and objects result in tourists interacting with place This theoretical framework elucidates three applied studies undertaken with foreign visitors to the Hungarian capital of Budapest Based upon extensive ethnographic field work these studies focus on tourists interpretation of the urban landscape with particular attention paid to the encounters with national culture the role of architecture and the importance of the prosaic in urban tourism
