**The Wisdom of the Lotus Sutra, vol. 4** Daisaku Ikeda, 2022-05-01 The Lotus Sutra Shakyamuni Buddha's highest teaching explains that all people regardless of gender, social status or education can uncover the Buddha nature they inherently possess. Based on this empowering and compassionate sutra, Nichiren Daishonin revealed the supreme practice for the modern world. Now in clear, down-to-earth terms, SGI President Ikeda and Soka Gakkai Study Department leaders Katsuji Saito, Takanori Endo, and Haruo Suda explore the profound meaning of the Lotus Sutra's twenty-eight chapters. Basing themselves on Nichiren Daishonin's lectures on the Lotus Sutra, *The Record of the Orally Transmitted Teachings*, they explain the concepts that form the foundation of SGI members' Buddhist practice. Through their discussions, the ancient text of the Lotus Sutra comes alive, brimming with profound significance and practical advice for living in today's world. Volume four covers chapter 16 of the twenty-eight chapters of the Lotus Sutra. [Biomedical Ethics \(Volume 4 Part 1\)](#) Shiva Nath Prasad, Avinash Kumar Srivastava, 2018-01-01 The present volume is given to the study of Biomedical Ethics, which is by far the most difficult as well as a new branch of Applied Ethics, on which very scanty materials are available. The branch called Biomedical is concerned with life. The book discusses various problems of life right from the primary stage of conception, foetus, female foeticide, new techniques of cloning, euthanasia, ageing in its multiple aspects, organ transplantation, Intellectual Property Rights, Copy Rights, bio technology, neuro diseases, and ethics of care. Health in Buddhist contexts, bioethics in Buddhists' texts, and bioethics in Indian context in general, etc. The book provides rich information about all these complex problems, all of which come from specialized scholars of this field, having experience as well as expertise, and would prove a most valuable text book not only to the scholars/students engaged in the study in this field but to the curious common readers as well. *The Origins of Religious Violence* Nicholas F. Gier, 2014-08-20. Religiously motivated violence caused by the fusion of state and religion occurred in medieval Tibet and Bhutan and later in imperial Japan, but interfaith conflict also followed colonial incursions in India, Sri Lanka, and Burma. Before that time, there was a general premodern harmony among the resident religions of the latter countries, and only in the late nineteenth and twentieth centuries did religiously motivated violence break out. While conflict caused by Hindu fundamentalists has been serious and widespread, a combination of medieval Tibetan Buddhists and modern Sri Lankan, Japanese, and Burmese Buddhists has caused the most violence among the Asian religions. However, the Chinese Taiping Christians have the world record for the number of religious killings by one single sect. A theoretical investigation reveals that specific aspects of the Abrahamic religions—an insistence on the purity of revelation, a deity who intervenes in history, but one who still is primarily transcendent—may be primary causes of religious conflict. Only one factor, a mystical monism not favored in Judaism, Christianity, and Islam, was the basis of a distinctively Japanese Buddhist call for individuals to identify totally with the emperor and to wage war on behalf of a divine ruler.

*The Origins of Religious Violence: An Asian Perspective* uses a methodological heuristic of premodern, modern, and constructive postmodern forms of thought to analyze causes and offer solutions to religious violence.
