Greenstein's model that a fresh look can be taken at not only Major's time in office but equally the man himself which proves to be just as revealing. Major's tenure has often been characterised as being weak and incompetent as he presided over a sleaze ridden and divided party on the issue of Europe. With almost a quarter of a century having passed since Major left office it looks to be an appropriate moment to re-assess his premiership and important role in the recent seismic events surrounding the 2016 Brexit referendum and its outcome. Thomas McMeeking is a researcher and teaching assistant at University of Leeds UK. His interests include Political Parties, Prime Ministerial and Presidential Leadership studies and UK and International Politics. **John Major** Bruce Anderson, 1991
