Make For Fun:

Make Fun! Bob Knetzger, 2016-03-22 You don't need to own a factory to make toys. Author and toymaker Bob Knetzger has been making fun stuff all his life with simple technology like vacuum forming and mold making. In an age where makers are tantalized by the capabilities of 3d printers and other digital fab technology, this book takes you back to old school hand tools, simple electronics, and working with metal and plastic to make toys every bit as good as those you can find in a big box store. This book has something for everyone, from a marble maze to a talking booby trap, from custom cookie cutters to an EZ Make oven. Discover the basic principles of science, electronics, and engineering through hands-on projects that range from easy to more challenging and are always fun.
