The Poetics of Description Janice Hewlett Koelb,2006-12-11 This book tells a remarkable story that begins in classical antiquity with ecphrasis the art of describing the world so vividly that the audience could become imaginative eyewitnesses and the events that caused an ideal of immediacy to be transformed into nearly its opposite a preoccupation with representation of representation *Roman Artists, Patrons, and Public Consumption* Brenda Longfellow, Ellen Perry,2018-01-10 In recent decades the study of Roman art has shifted focus dramatically from issues of connoisseurship typology and chronology to analyses of objects within their contemporary contexts and local environments Scholars challenge the notion formerly taken for granted that extant historical texts the writings of Vitruvius for example can directly inform the study of architectural remains Roman era statues paintings and mosaics are no longer dismissed as perfunctory replicas of lost Greek or Hellenistic originals they are worthy of study in their own right Further the scope of what constitutes Roman art has expanded to include the vast spectrum of objects used in civic religious funerary and domestic contexts and from communities across the Roman Empire The work gathered in *Roman Artists Patrons and Public Consumption* displays the breadth and depth of scholarship in the field made possible by these fundamental changes The first five essays approach individual objects and artistic tropes as well as their cultural contexts and functions from fresh and dynamic angles The latter essays focus on case studies in Pompeii demonstrating how close visual analysis firmly rooted in local and temporal contexts not only strengthens understanding of ancient interactions with monuments but also sparks a reconsideration of long held assumptions reinforced by earlier scholarship These rigorous essays reflect and honor the groundbreaking scholarship of Elaine K Gazda In addition to volume editors Brenda Longfellow and Ellen E Perry contributors include Bettina Bergmann Elise Friedland Barbara Kellum Diana Y Ng Jessica Powers Melanie Grunow Sobocinski Lea M Stirling Molly Swetnam Burland Elizabeth Wolfram Thill and Jennifer Trimble Cicero: A Study in the Origins of Republican Philosophy Robert T. philosophy his influence on the Principate of Augustus and his role in the development of modern political philosophy As all the ages of the world have not produced a greater statesman and philosopher united than Cicero his authority should have great weight John Adams 1787
