The Ayes Have It John Wanna, Tracey Arklay, 2010-07-01 The Ayes Have It is a fascinating account of the Queensland Parliament during three decades of high drama politics It examines in detail the Queensland Parliament from the days of the Labor split in the 1950s through the conservative governments of Frank Nicklin John Bjelke Petersen and Mike Ahern to the fall of the Nationals government led briefly by Russell Cooper in December 1989 The volume traces the rough and tumble of parliamentary politics in the frontier state The authors focus on parliament as a political forum on the representatives and personalities that made up the institution over this period on the priorities and political agendas that were pursued and the increasingly contentious practices used to control parliamentary proceedings Throughout the entire history are woven other controversies that repeatedly recur controversies over state economic development the provision of government services industrial disputation and government reactions electoral zoning and disputes over malapportionment the impost of taxation in the low tax state encroachments on civil liberties and political protests the perennial topic of censorship as well as the emerging issues of integrity concerns about conflicts of interest and the slide towards corruption There are fights with the federal government especially with the Whitlam government and internal fights within the

governing coalition which eventually leads to its collapse in 1983 after which the Nationals manage to govern alone for two very tumultuous terms On the non government side the bitterness of the 1950s split was reflected in the early parliaments of this period and while the Australian Labor Party eventually saw off its rivalrous off shoot the QLP DLP it then began to implode through waves of internal factional discord *Australian Book Review*, 2006 **New Directions in**

Saskatchewan Public Policy David McGrane, 2011 In this new scholarly compilation by David P McGrane established and emerging trends in Saskatchewan public policy are the foundation for setting new directions for the province in the 21st century In what direction should Saskatchewan be headed in the 21st century To answer this question academics from various disciplines at the University of Regina and University of Saskatchewan have come together to produce *New Directions in Saskatchewan Public Policy* the first edited book exclusively devoted to public policy in the province with chapters discussing taxation immigration agriculture urban affairs poverty reduction the social economy labour aging Aboriginal public administration and climate change The authors provide an analysis and description of the current policies of the Wall government and also look back to explore what the Romanow and Calvert governments did in these areas The overarching theme of the book is that despite the province's robust economic growth significant public policy challenges remain for the Saskatchewan provincial government The lesson is that economic growth does not magically solve entrenched societal problems and that economic prosperity will dissipate if worrisome social trends are left unchecked While many scholarly books shy away from prescription the authors of this book include sections in their chapters that set out new directions for policy development As such the book not only contains solid analysis of the present policy situation but also offers concrete ideas for future policy makers **The Courage to Teach Guide for Reflection and Renewal** Parker J. Rethinking Strategic Learning Russ Vince, 2004-04-22 Russ Vince examines learning as both a social and a strategic process invariably linked to emotions and politics that are mobilized by attempts at learning and organizing He makes a substantial contribution to theories of organizational learning and develops new ideas about critical reflection and collective leadership The author outlines a critical perspective on HRD arguing that staff responsible for learning and change in organizations have put too much effort into the development of individuals and not enough into understanding and engaging with organizational dynamics that limit and shape individuals opportunities and abilities to learn and change HRD is explained as an intervention within a political system and practice of management and leadership with all the difficulties and contradictions that attempting to manage and to lead are likely to contain and reveal This means that the focus of HRD is on action on developing the capacity to act on generating credibility through action and on influencing and working with others in situations loaded with emotion and politics
