Wheel & Pinion Cutting in Horology Malcolm Wild,2001-07-23 Many clock repairers carry out excellent work but avoid cutting their own wheels and pinions fearing it is too complicated and involved This book written by an experienced clock and tool maker dispels those fears and gives a step by step guide to an extremely satisfying aspect of horology This book is written for both the amateur and professional involved in the making and restoring of clocks and for anyone who intends to start building up a workshop and requires a guide to the equipment and how to use it

Old Scottish Clockmakers from 1453 to 1850 John Smith,1921

Escaping Suburbia David J Eveleigh,2019-10-28 Born into the gap between the eras of austerity and boom David grew up

in Merseyside amid an inexorable tide of progress developing a fascination with the past With a vivid eye for detail and boundless childhood curiosity for everything from steam trains to My Old Man s a Dustman his account documents the uneasy relationship between worlds old and new Featuring unique photographs and authoritative observations on architecture social and local history based on forty years work in museums and heritage conservation Escaping Suburbia offers a different view of the swinging sixties Colour and Language Siegfried Wyler,1992 *Restoring Grandfather Clocks* Eric Smith,Brian Smith,1995-03-01 The grandfather clock an entirely new kind of furniture first appeared in the late seventeenth century From then on with its long case to protect pendulum and weights its rugged movement and large clear indication of time it has been a success story right up to the present day Virtually none of these clocks is beyond repair and often the work required is within the scope of inexperienced owners This is the first full length book to cover repair and restoration of these attractive and often valuable antiques including their casework The first part outlines how to clean and service the clock works and also how to refurbish the dial while in the second part restoration or casework both structural repairs and finishing is considered The illustrations are of two actual clocks one eight day and one thirty hour and work proceeding on them The last part of the book sketches common variations from these particular examples Armed with this book and appropriate tools for work on both movement and case the owner of a dilapidated grandfather clock will be encouraged and given the know how to restore it to life as a useful and attractive clock and a prized possession *Brass Dial Clocks* Brian Loomes,1998 This important new title discusses the origins style and development of domestic brass dial clocks made between the early seventeenth and the end of the eighteenth centuries The book provides a detailed examination of eight day and thirty hour clocks with hundreds of illustrated examples of longcase bracket lantern derivatives hook and spike and hooded clocks It examines the development and distribution of each with a complete re examination of prototype thirty hour clockwork and the work of clocksmiths with a detailed discussion on the recognition of styles of the various regions countries Some of these aspects are discussed here for the first time This new title will have a wide appeal as the author assumes no prior knowledge of the subject from his reader and concerns himself exclusively with a discussion of accessible clocks not the rare museum pieces so often featured in other horological publications He concentrates mainly on regional types but also includes a very small number of London clocks in order that comparisons may be made and uses examples from all over Britain including Scotland and Ireland and many from America **The Wetherfield Collection of English Clocks** David Arthur Fasham Wetherfield,1928 **R.
