Making News:

MAKING NEWS: A STUDY IN THE CONSTRUCTION OF REALITY Gaye Tuchman, 1978-11 *Making News* David Henderson, 2008-11-02 *Making News* A Straight Shooting Guide to Media Relations is an insider's look at today's changing news media with essential tips for How to ensure your story will be chosen as today's news How to gain credibility and achieve effective coverage How to better communicate with reporters editors and producers How to use media coverage to build a distinctive brand image From the perspective of an accomplished expert and with advice from leading journalists *Making News* provides a deeper understanding of how the news business functions how journalists judge the value of a legitimate story and how you can communicate with the media to achieve outstanding results PRAISE FOR DAVID HENDERSON Public relations is never as easy as it looks So you are lucky to be reading this book for few know PR as well as David Henderson A skilled correspondent and a gifted man David knows both sides of the process of delivering a message Harry Smith CBS News David Henderson has worked both sides of the street as a reporter and an advocate He has that double advantage of knowing a story and knowing how to sell it Richard Serrano Los Angeles Times **Making News** Richard R. John, Jonathan Silberstein-Loeb, 2015-09-24 How can the news business be re envisioned in a rapidly changing world Can market incentives and technological imperatives provide a way forward How important have been the institutional arrangements that protected the production and distribution of news in the past *Making News* charts the institutional arrangements that news providers in Britain and America have relied on since the late seventeenth century to facilitate the production and distribution of news It is organized around eight original essays each written by a distinguished specialist and each explicitly comparative Seven chapters survey the shifting institutional arrangements that facilitated the production and distribution of news in Britain and America in the period between 1688 and 1995 An eighth chapter surveys the news business following the commercialization of the Internet while the epilogue links past present and future Its theme is the indispensability in both Great Britain and the United States of non market institutional arrangements in the provisioning of news Only rarely has advertising revenue and direct sales covered costs Almost never has the demand for news generated the revenue necessary for its supply The presumption that the news business can flourish in a marketplace of ideas has long been a civic ideal In practice however the emergence of a genuinely competitive marketplace for the production and distribution of news has limited the resources for high quality news reporting For the production of high quality journalism is a byproduct less of the market than of its supersession And in particular it has long depended on the acquiescence of lawmakers in market limiting business strategies that have transformed journalism in the past and that will in all likelihood transform it once again in the future **Making Laws and Making News** Timothy Cook, 2010-12-01 The news media especially television have become a fixture on Capitol Hill in the past twenty years *Making Laws and Making News* describes the interactive relationship between the press and Congress that strongly affects the news the legislative process and the

types of laws enacted Instead of focusing on how reporters decide who and what to cover and how news is resented Cook examines the other side of the equation the relationship between the media strategies of House member s press offices and the legislative strategies of the members themselves The book won the 1990 Benjamin Franklin Award for Excellence in Independent Publishing *Making News in India* Somnath Batabyal,2014-03-14 Post liberalisation India has witnessed a dramatic growth of the television industry as well as on screen images of the glitz and glamour of a vibrant shining India Through a detailed ethnographic study of Star News and Star Ananda involving interviews observations and content analysis this book explores the milieu of 24 hour private news channels in India today It offers insightful glimpses into the workings of one of the mightiest news corporations in the world and its ability to manufacture everyday reality for its audiences Based on fieldwork in Mumbai and Kolkata this study not only provides a detailed description of the television newsroom its rituals and rhythms but ventures beyond it to investigate how editorial and corporate strategies converge increasingly in an industry driven by profit Through analysing how TRPs work to produce a non inclusive idea of the audience and examining hundreds of hours of news content the book explores how news channels construct a vision of nationhood and of a successful and vibrant economy that caters primarily to the needs of the resurgent Indian middle class While it will be of particular interest to media and cultural studies scholars and students and to journalists and media professionals in general this lively engaging book also aims to give the general reader the wherewithal to analyse and critique the continuous barrage of 24 hour news television today Making Noise, Making News Mary Chapman,2014-03-20 For most people the U S suffrage campaign is encapsulated by images of iconic nineteenth century orators like the tightly coifed Susan B Anthony or the wimpled Elizabeth Cady Stanton However as Mary Chapman shows the campaign to secure the vote for U S women was also a modern and print cultural phenomenon waged with humor creativity and style Making Noise Making News also understands modern suffragist print culture as a demonstrable link between the Progressive Era s political campaign for a voice in the public sphere and Modernism s aesthetic efforts to re imagine literary voice Chapman charts a relationship between modern suffragist print cultural noise and what literary modernists understood by making it new asserting that the experimental tactics of U S suffrage print culture contributed to and even anticipated the formal innovations of U S literary modernism Drawing on little known archives and featuring over twenty illustrations Making Noise Making News provides startling documentation of Marianne Moore s closeted career as a suffrage propagandist the persuasive effects of Alice Duer Miller s popular poetry column Asian American author Sui Sin Far s challenge to the racism and classism of modern suffragism and Gertrude Stein s midcentury acknowledgement of intersections between suffrage discourse and literary modernism Making News at The New York Times Nikki Usher,2014-04-24 An ethnographic study of The New York Times business desk provides a unique vantage point to see the future for news in the digital age **Making News of Police Violence** Jeffrey Ian Ross Ph.D.,2000-08-30 Although many people consider excessive police violence disconcerting if when and how they voice their

opinion or respond by taking some sort of action has generally remained empirically unknown In the hope of understanding this process Ross has developed a four stage model based on a review of the literature and on interviews with the relevant actors He then uses this tool to analyze police violence that occurred in Toronto Canada and New York City over a fifteen year period To better focus the study he uses in depth case studies of three well publicized cases of police violence from each city matched on important criteria This study addresses a difficult timely and important topic for victims for police personnel and for society Ross concludes that in general most individuals do not respond to police use of excessive force further if and when they do usually depends on the context of the violence Using both quantitative and qualitative methods Ross s model integrates a variety of approaches to improve our understanding of how communities come to define and control the use of force by police including literature on the role of media efforts and their impact upon police violence The work concludes with an analysis of the reasons why people react so infrequently to incidents of excessive force
