**Literary Knowing and the Making of English Teachers** Larissa McLean Davies, Brenton Doecke, Philip Mead, Wayne Sawyer, Lyn Yates, 2022-09-29 At a time when knowledge is being re valued as central to curriculum concerns subject English is being called to account Literary Knowing and the Making of English Teachers puts long standing debates about knowledge and knowing in English in dialogue with an investigation of how English teachers are made in the 21st century This book explores for the first time the role of literature in shaping English teachers professional knowledge and identities by examining the impacts in particular of their own school teaching in their making The voices of early career English teachers feature throughout the work in a series of vignettes providing reflective accounts of their professional learning The authors bring a range of disciplinary expertise and standpoints to explore the complexity of knowledge and knowing in English They ask How do English teachers negotiate competing curriculum demands How do they understand literary knowledge in a neoliberal context What is core English knowledge for students and what role should literature play in the contemporary curriculum Drawing on a major longitudinal research project they bring to light what English teachers see as central to their work the ways they connect teaching with their disciplinary training and how their understandings of literary practice are contested and reimaged in the classroom This innovative work is essential reading for scholars and postgraduate students in the fields of teacher education English education literary studies and curriculum studies

*English as a Language of Teaching and Learning for Community Secondary Schools in Tanzania* Elia Shabani Mligo, Mikael Mwashilindi, 2017-08-07 This book examines the challenges posed by English a foreign language as a language of teaching and learning for community secondary schools in Tanzania in terms of academic

performance The book probes the necessity for having two languages of instruction in the Tanzanian educational system While Kiswahili the native language is predominantly understood by the majority of people the discussion in this book indicates that most students in community secondary schools in Tanzania are incompetent in understanding writing listening reading and speaking English a language they use in learning and doing their examinations especially in the early stages of their secondary studies The incompetence in the above mentioned skills is mostly caused by their inability to cope with the abrupt transition in the languages of instruction from their pre primary and primary school study Kiswahili to secondary school study English Moreover most teachers are unable to use the English language as a means to impart knowledge or facilitate learning to their students leading them to code switching and code mixing This book poses a challenge to countries whose students pass through a transition from one language of instruction to another in their educational systems helping them to make appropriate decisions in regard to the appropriate language of teaching and learning **Autonomous**

*International Teacher Judgement Practices* Val Klenowski, 2017-10-02 Human judgements underlie all assessments regarding the quality of students understandings and such judgements are conceptually complex and elusive The study of the complexity of the judgement process is in its infancy but clearly warrants further critical investigation However what is demonstrated from the wide variety of international teacher judgement practices presented in this volume is that teacher judgement requires a lot more than a set of standards criteria and annotated examples Understandings of assessment theory by pre service teachers through to more experienced teachers and opportunities for all to critically reflect and consider their judgements of student work are vital Teachers are struggling to maintain their interpretive freedom at the local professional level in contexts where central policies promote standardisation or regulation of judgement practice for accountability purposes This book was originally published as a special issue of *Assessment in Education principles policy practice*

**Report of the Board of Education** Great Britain. Board of Education,1909 *Literacy in America* Lawrence R. Samuel,2024-05-07 Literacy in America A Cultural History of the Past Century is a history of literacy in the United States over the last one hundred years Told chronologically and supported by hundreds of research studies done over the years as reported in scholarly journals the work sheds new light on the important role that literacy and reading in general have played in this country since the 1920s The subject is parsed through the voices of educators intellectuals and journalists who have weighed in on its many different dimensions Literacy is a key site of race gender and class offering insights related to the social and economic inequities that are embedded in our institutions The primary argument of Literacy in America is that literacy as a major part of education has functioned as a means of social control of children with authority figures dictating which reading material is acceptable and which is not Literacy has also operated as a vehicle of citizenship for Americans of all ages and as a symbol of the responsibilities of democracy With its ambitious scope the strives to be a seminal guide to literacy in America and add to our understanding of everyday life in the United States Most interesting perhaps is the twisting unpredictable journey of literacy since the end of World War I when I argue that the subject s modern era began Rather than follow a straight line both the perception and reality of reading swerved over the years offering a trajectory that makes for a compelling narrative for anyone interested in American cultural and social history Controversy of some kind has often surrounded literacy in the United States this alone making it a fascinating source of interest to explore in detail *Shakespeare and Indian Nationalism* Manojit Mandal,2023-09-29

*Shakespeare and Indian Nationalism* aims to articulate the reception of Shakespeare by the 19th century Indian intelligentsia

from Bengal and their ambivalent approach to the Indian Renaissance and consequent nationalist project Showcasing the cultural politics of British imperialism this volume focuses on six early nationalist writers and their engagement with Shakespeare Ishwarchandra Vidyasagar 1820 1891 Hemchandra Bandopadhyay 1838 1903 Girishchandra Ghosh 1844 1912 Purnachandra Basu 1844 unknown Iswarchandra Vidyasagar 1820 1891 Bankimchandra Chattopadhyaya 1838 1894 and Rabindranath Tagore 1861 1941 Drawing on Antonio Gramsci's theory of hegemony and a host of prominent writers of cultural politics nationalism and Indian history this interdisciplinary approach combines postcolonial studies and Shakespeare studies in an attempt to reconcile the existence of an unbridled admiration for an English cultural icon in India alongside the rise of nationalism and a fierce resistance to British rule The book finally moves to re explore Shakespeare's position in academic political and popular nationalist discourses in postcolonial India **Intellect** ,1918
