Making Of Saints:

Making saints : how the catholic church determines who becomes a saint, who doesn't, and why Kenneth L. Woodward,1990 Making Saints Kenneth L. Woodward,2016-04-26 From inside the Vatican the book that became a modern classic on sainthood in the Catholic Church Working from church documents Kenneth Woodward shows how saint makers decide who is worthy of the church s highest honor He describes the investigations into lives of candidates explains how claims for miracles are approved or rejected and reveals the role politics papal and secular plays in the ultimate decision From his examination of such controversial candidates as Archbishop Oscar Romero of El Salvador and Edith Stein a Jewish philosopher who became a nun and was gassed at Auschwitz to his insights into the changes Pope John Paul II has instituted Woodward opens the door on a 2 000 year old tradition *The Making of Saints* Michael Freze,1991 Making Saints in Modern China David Ownby,2017 Sainthood has been and remains a contested category in China given the commitment of China s modern leadership to secularization modernization and revolution and the discomfort of China s elite with matters concerning religion However sainted religious leaders have succeeded in rebuilding old institutions and creating new ones despite the Chinese government s censure This book offers a new perspective on the history of religion in modern and contemporary China by focusing on the profiles of these religious leaders from the early 20th century through the present Edited by noted authorities in the field of Chinese religion Making Saints in Modern China offers biographies of prominent Daoists and Buddhists as well as of the charismatic leaders of redemptive societies and state managers of religious associations in the People s Republic The focus of the volume is largely on figures in China proper although some attention is accorded to those in Taiwan Hong Kong and other areas of the Chinese diaspora Each chapter offers a biography of a religious leader and a detailed discussion of the way in which he or she became a saint The biographies illustrate how these leaders deployed and sometimes retooled traditional themes in hagiography and charismatic communication to attract followers and compete in the religious marketplace Negotiation with often hostile authorities was also an important aspect of religious leadership and many of the saints stories reveal unexpected reserves of creativity and determination The volume s contributors from the United States Canada France Italy China and Taiwan provide cutting edge scholarship Taken together these essays make the case that vital religious leadership and practice has existed and continues to exist in China despite the state s commitment to wholesale secularization *Ordinary Saints* Stuart C. A Saint of Our Own Kathleen Sprows Cummings,2019-02-27 What drove U S Catholics in their arduous quest full of

twists and turns over more than a century to win an American saint The absence of American names in the canon of the saints had left many of the faithful feeling spiritually unmoored But while canonization may be fundamentally about holiness it is never only about holiness reveals Kathleen Sprows Cummings in this panoramic passionate chronicle of American sanctity Catholics had another reason for petitioning the Vatican to acknowledge an American holy hero A home grown saint would serve as a mediator between heaven and earth yes but also between Catholicism and American culture Throughout much of U S history the making of a saint was also about the ways in which the members of a minority religious group defined defended and celebrated their identities as Americans Their fascinatingly diverse causes for canonization from Kateri Tekakwitha and Elizabeth Ann Seton to many others that are failed forgotten or still under way represented evolving national values as Catholics made themselves at home Cummings s vision of American sanctity shows just how much Catholics had at stake in cultivating devotion to men and women perched at the nexus of holiness and American history until they finally felt little need to prove that they belonged

Martyrdom and the Politics of Religion Anna L. Peterson,1996-10-17 Martyrdom and the Politics of Religion explores the ways that Salvadoran Catholics sought to make

sense of political violence in their country in the 1970s and 1980s by constructing a theological ethics that could both explain repression in religious terms and propose specific responses to violence Drawing on extensive fieldwork the book highlights the ways that progressive Catholicism offered a justification and tools for political resistance in the face of extraordinary destruction Using the case of Catholicism in El Salvador the book explores the nature of religious responses to social crisis and the ways that ordinary believers construct and strive to live by ethical systems By highlighting the importance of theological belief of narrative and of religious rationality in political mobilization it touches questions of general interest to readers concerned with the social role of religion and ethics

The Making of Saints in Late Antique North Africa Sabine Panzram, Nathalie Klinck, 2024 The Making of Saints is a phenomenon of central significance to Christianity since a vision inspired Ambrosius discovered the remains of the martyrs Gervasius and Protasius in 386 AD in Milan In North Africa it seems to have taken on an extremely interesting form that makes Brent D Shaw speaking of the blood of the martyrs as the vital force the kinetic energy powering Christian life in Africa This volume contributes to the productively expanding research field of North African Christianity by providing narrative analyses on the one hand and presenting case studies from an archaeological perspective on the other which allow a comparative perspective of the phenomenon in order to systematically combine them narrative alone did not make a martyr architectural staging too was needed the story made the martyr and the staging made the saint The multidisciplinary approach brings together the most recent results concerning excavations and epigraphy but also an innovative conceptual understanding of text space and last but not least religion in order to examine the social function that the veneration of martyrs had in a longue duree perspective
