Making Of The Gulf War:

Iraq and the Gulf War F. Gregory Gause, 2001*

Making Political Geography John Agnew, Luca

Muscarà, 2012-02-16 Dating from its inception in the late nineteenth century political geography as a field has been heavily influenced by global events of the time. Thus rather than trying to impose a single fashionable theory leading geographers John Agnew and Luca Muscar consider the underlying role of changing geopolitical context as their framework for understanding the evolution of the discipline. The authors trace the development of key thinkers and theories during three distinct periods: 1875-1945, the Cold War, and the post-Cold War, emphasizing the ongoing struggle between theoretical monism and pluralism or one path to knowledge versus many. The world has undergone dramatic shifts since the book's first publication in 2002, and this thoroughly revised and updated second edition focuses especially on reinterpretations of the post-Cold War period. Agnew and Muscar explore the renewed questioning of international borders, the emergence of the Middle East and displacement of Europe as the center of global geopolitics, the rise of China and other new powers, the reappearance of environmental issues, and the development of critical geopolitics. With its deeply knowledgeable and balanced history and overview of the field, this concise work will be a valuable and flexible text for all courses in political geography.

Making War, Thinking History Jeffrey Record, 2014-02-15 In examining the influence of historical analogies on decisions to use or not use force, military strategist Jeffrey Record assesses every major application of U.S. force from the Korean War to the NATO war on Serbia. Specifically, he looks at the influence of two analogies: the democracies' appeasement of Hitler at Munich and America's defeat in the Vietnam War. His book judges the utility of these two analogies on presidential decision making and finds considerable misuse of them in situations where force was optional. He points to the Johnson administration's application of the Munich analogy to the circumstances of Southeast Asia in 1965 as the most egregious example of their misuse but also cites the faulty reasoning by historical analogy that prevailed among critics of Reagan's policy in Central America and in Clinton's use of force in Haiti and the former Yugoslavia. The author's findings show generational experience to be a key influence on presidential decision making. Munich persuaded mid-twentieth-century presidents that force should be used early and decisively, while Vietnam cautioned later presidents against using force at all. Both analogies were at work for the Gulf War, with Munich urging a decision for war and Vietnam warning against a graduated and highly restricted use of force. Record also reminds us of the times when presidents have used analogies to mobilize public support for action they have already decided to take. Addressing both the process of presidential decision making and the wisdom of decisions made, this well-reasoned book offers timely lessons to a broad audience that includes political scientists, military historians, defense analysts, and policy makers, as well as those simply curious about history's influence.

Making the Stage Ann C. Hall, 2020-11-30 MAKING THE STAGE is a collection of essays that examines the role of theatre drama and performance in contemporary culture a culture that is growing increasingly technological and isolated seemingly at odds with the very nature of theatre a collaborative and sometimes very primitive art form Through the course of these essays it is clear that theatre not only survives some of the challenges of the day but even defines discussions particularly political ones which are prohibited by an increasingly manipulated media The essays from a diverse group of theatre scholars examine the mechanics of theatre from space to sound to the use of technology the role of women in creating theatre the relationship between theatre and literary art forms the politics of theatre science and theatre and the role of performance art Through them all it is clear that theatre drama and performance continue to speak in significant ways

Emotional Choices Robin Markwica, 2018-03-06

Why do states often refuse to yield to military threats from a

more powerful actor such as the United States Why do they frequently prefer war to compliance International Relations scholars generally employ the rational choice logic of consequences or the constructivist logic of appropriateness to explain this puzzling behavior Max Weber however suggested a third logic of choice in his magnum opus *Economy and Society* human decision making can also be motivated by emotions Drawing on Weber and more recent scholarship in sociology and psychology Robin Markwica introduces the logic of affect or emotional choice theory into the field of International Relations The logic of affect posits that actors behavior is shaped by the dynamic interplay among their norms identities and five key emotions fear anger hope pride and humiliation Markwica puts forward a series of propositions that specify the affective conditions under which leaders are likely to accept or reject a coercer s demands To infer emotions and to examine their influence on decision making he develops a methodological strategy combining sentiment analysis and an interpretive form of process tracing He then applies the logic of affect to Nikita Khrushchev s behavior during the Cuban missile crisis in 1962 and Saddam Hussein s decision making in the Gulf conflict in 1990 1 offering a novel explanation for why U S coercive diplomacy succeeded in one case but not in the other *United States Congressional Serial Set Catalog* ,1989 The Army Lawyer ,2009
