Making Oregon A Study In Historical Geography 2 Centuries Of Oregon Geography:

Geographers Geoffrey Martin, 2015-12-14 *Geographers* is an annual collection of studies on individuals who have made major contributions to the development of geography and geographical thought. Subjects are drawn from all periods and from all parts of the world and include famous names as well as those less well known including explorers, independent thinkers and scholars. Each paper describes the geographer's education, life and work and discusses their influence and spread of academic ideas. Each study includes a select bibliography and a brief chronology. The work includes a general index and a cumulative index of geographers listed in volumes published to date. Published under the auspices of the International Geographical Union.

Bibliography of Geography Chauncy Dennison Harris, 1984 Pt 1 Introduction to general aids pt 2 Regional v 1 The United States of America

Environment and Experience Peter Boag, 2024-03-29 The pioneer battling with a hostile environment, whether it be arid land, drought, dust storms, dense forests or harsh winters, is a staple of western American history. In this innovative multi-disciplinary work, Peter Boag takes issue with the image of the settler against the frontier, arguing that settlers viewed their new surroundings positively and attempted to create communities in harmony with the landscape. Using Oregon's Calapooya Valley as a case study, Boag presents a history of both land and people that shows the process of change as settlers populated the land and turned it to their own uses. By combining local sources ranging from letters and diaries to early maps and local histories and drawing upon the methods of geography, natural history and literary analysis, Boag has created a richly detailed grass roots portrait of a frontier community. Most significantly, he analyzes the connections among environmental, cultural and social changes in ways that illuminate the frontier experience throughout the American west. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach and impact. Drawing on a backlist dating to 1893, Voices Revived makes high quality peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1992.
