Making a Living Brian Robertson, 2005 *Course and Curriculum Improvement Materials* National Science Foundation (U.S.), 1976 **Report of the Board of Education of the City of Waterbury** Waterbury (Conn.). Board of Education, 1922
K-12 Classroom Teachers and Career Education Kenneth B. Waring, 2023

Educators across subject areas are striving to integrate primary sources into their pedagogy and teaching. Yet despite their importance to authentic disciplined inquiry, the implementation of primary source activities in the pre K 12 classroom has been limited. This lack of utilization can largely be attributed to the perception that these activities are too complex to design, implement, and grade. Many teachers also feel that primary source analysis and the construction of evidence-based narratives is too difficult for students to complete in the traditional classroom. Waring argues that this is not the case, and with this handbook provides teacher candidates and inservice teachers with detailed and specific perspectives, activities, approaches, and resources to help them effectively and authentically use primary sources in their classrooms.

Book Features: Introduces teaching with primary sources including detailed examples of authentic and tested instructional ideas and approaches. Designed to meet the needs of classroom teachers and teacher candidates in social studies, English, and language arts, mathematics, science, and other fields. Offers dozens of primary sources and links to resources throughout the book. Aligns to national standards frameworks and the C3 framework for social studies. Can be used to meet the needs of emerging English learners and students with special needs. Focuses on ways in which educators are utilizing a variety of emerging technologies to engage students in deeper and more authentic ways of learning. Contributors include Peter DeCraene, Lisa Fink, Eric J. Pyle, Stefanie R. Wager, Sarah Westbrook, and Trena L. Wilkerson.
