## **Making And Selling Culture:**

**Selling Culture** Richard Malin Ohmann, 1996 In this fascinating and highly acclaimed study of the development of consumer society in the United States Richard Ohmann traces the birth and subsequent growth of mass culture that came with the rise of general interest magazines and brand name products 20 photos Making and Selling Culture Richard Ohmann, 1996-11-25 An inside look at cultural industries featuring interviews with key players from such companies as Twentieth Century Fox National Public Radio and Coca Cola To what extent do moviemakers television and radio producers advertising executives and marketers merely reflect trends beliefs and desires that already exist in our culture and to what extent do they consciously shape our culture to their own ends In depth interviews with ten executives from the culture industry and five scholarly analyses examine that question and address the issues of power and authority meaning and identity that arise when cultural producers define and react to audiences In their own words leaders from companies like Twentieth Century Fox National Public Radio and Warner Bros Television describe their perception of the sometimes paradoxical relationship between culture and what influences it For example while the former president of Coca Cola North America claims the company has never tried to create a trend he notes that we market in more countries than belong to the United Nations a product that has insinuated itself into the lives of the people to a point where it has become you know it s there These reflections by key players provide an unprecedented view as editor Richard Ohmann writes into the ways cultural producers imagine or know markets and how such knowledge figures in their decisions about what events experiences and products to make Selling Culture Richard Malin Ohmann, 1996 Surveys the new practices of advertising mass distribution of goods and the birth of the inexpensive mass audience magazine at the end of the 19th century and their role in the creation of the American professional managerial class Focuses on magazine publishing careers of key personalities in the publishing world and the role of fiction in the magazines For students and general readers Annotation copyright by Book News Inc Portland OR **Ambassadors of Culture** Kirsten Silva Gruesz, 2002 This polished literary history argues forcefully that Latinos are not newcomers in the United States by documenting a vast network of Spanish language cultural activity in the nineteenth century Juxtaposing poems and essays by both powerful and peripheral writers Kirsten Silva Gruesz proposes a major revision of the nineteenth century U S canon and its historical contexts Drawing on previously unpublished archival materials and building on an innovative interpretation of poetry s cultural role Ambassadors of Culture brings together scattered writings from the borderlands of California and the Southwest as well as the cosmopolitan exile centers of New York New Orleans and San Francisco It reads these productions in light of broader patterns of relations between the U S and Latin America moving from the fraternal rhetoric of the Monroe Doctrine through the expansionist crisis of 1848 to the proto imperialist 1880s It shows how ambassadors of culture such as Whitman Longfellow and Bryant propagated ideas about Latin America and Latinos through their translations travel writings and

poems In addition to these well known figures and their counterparts in the work of nation building in Cuba Mexico and Central and South America this book also introduces unremembered women writers and local poets writing in both Spanish and English In telling the almost forgotten early history of travels and translations between U S and Latin American writers Gruesz shows that Anglo and Latino traditions in the New World were from the beginning deeply intertwined and mutually necessary
