Organizing for School Change Karen Seashore Louis, 2013-01-11 Improving education is a key priority for governments around the world While many suggestions on how best to achieve this are currently under debate years of academic research have already revealed more about how to encourage change than is sometimes assumed This volume brings together for the first time some of the most significant work of Karen Seashore Louis one of the foremost thinkers and researchers in the field

Organizing for School Change presents a unique variety of research based results from studies conducted over the past twenty five years What emerges is not an idealistic plan but a realistic picture of what needs to be done if schools are to be made better Drawing on a wide and comprehensive list of sources the ideas brought together in this collection will prove invaluable and insightful reading stimulating both newcomers and veterans of the field to consider educational research in new ways *Journal of Education* ,1911 *Making Change Stick: A Practical Guide to Implementing School Improvement* James Mannion,2025-01-24 Implementing change is a complex undertaking and most school improvement initiatives fail to meet their stated aims But it doesn t have to be this way Drawing on a decade of research and development in schools around the world Dr James Mannion introduces the Making Change Stick programme a groundbreaking approach to implementing sustainable school improvement This practical guide draws together insights from implementation and improvement science equipping educators with practical tools and a systematic framework to lead effective change that positively impacts pupil outcomes Inside you ll find A step by step framework including guidance on data collection habit formation and team collaboration Detailed examples of effective change implementation tailored to different school contexts A range of tried and tested strategies to turn intentions into lasting improvement Whether you re a teacher school leader or policymaker Making Change Stick offers essential tools to create a culture of continuous improvement and make a lasting difference **Resources in Education** ,2000-10 *The SAGE Handbook of Responsible Management Learning and Education* Dirk C. Moosmayer,Oliver Laasch,Carole Parkes,Kenneth G. Brown,2020-08-10 Reflecting the rapid rise in popularity of recent initiatives such as the UN Principles for Responsible Management Education PRME this handbook exhaustively covers a variety of responsible management learning and education topics and provides an invaluable roadmap for this fast developing field Covering various perspectives on the topic right through to contexts methods outcomes and beyond this volume will be an invaluable integrative resource for practitioners and researchers alike and is designed to serve a range of communities that deal with topics related to sustainability responsibility and ethics in management learning and education [Resources in Women's Educational Equity: Special Issue](#) ,1979 *Practices, Perceptions and Prospects for Climate Change Education in Africa* Marcellus Forh Mbah,Petra Molthan-Hill,Ernest L. Molua,2025-04-08 This open access book presents peer reviewed chapters that introduce the subject of climate change within formal and informal sectors of education in Africa as key to building the capacity of current and future generations to address the most pressing global issue An insight into existing practices perceptions and prospects for climate change education in Africa can bring to light relevant frameworks that can support a climate resilient future in the continent Among others the book contends that there is a need to rethink current practices of climate change education in the continent by optimizing Indigenous knowledge systems and context relevant pedagogies as important strategies Governments civil society and other stakeholders in Africa can draw on the rich insights captured in this book as they consider feasible approaches to resolve the current climate crisis

Changing Conceptions, Changing Practices Angela Glotfelter, Caitlin Martin, Mandy Olejnik, Ann Updike, Elizabeth Wardle, 2022-12-28 Changing Conceptions Changing Practices demonstrates that it is possible for groups of faculty members to change teaching and learning in radical ways across their programs despite the current emphasis on efficiency and accountability Relating the experiences of faculty from disciplines as diverse as art history economics psychology and philosophy this book offers a theory and research based heuristic for helping faculty transform their courses and programs as well as practical examples of the heuristic in action The authors draw on the threshold concepts framework research in writing studies and theories of learning leadership and change to deftly explore why faculty are often stymied in their efforts to design meaningful curricula for deep learning and how carefully scaffolded professional development for faculty teams can help make such change possible This book is a powerful demonstration of how faculty members can be empowered when professional development leaders draw on a range of scholarship that is not typically connected In today's climate courses programs and institutions are often assessed by and rewarded for proxy metrics that have little to do with learning with grave consequences for students The stakes have never been higher particularly for public higher education Faculty members need opportunities to work together using their own expertise and to enact meaningful learning opportunities for students Professional developers have an important role to play in such change efforts WAC scholars and practitioners leaders of professional development and centers for teaching excellence program administrators and curriculum committees from all disciplines and faculty innovators from many fields will find not only hope but also a blueprint for action in Changing Conceptions Changing Practices Contributors Juan Carlos Albarr n Jos Amador Annie Dell Aria Kate de Medeiros Keith Fennen Jordan A Fenton Carrie E Hall Elena Jackson Albarr n Erik N Jensen Vrinda Kalia Janice Kinghorn Jennifer Kinney Sheri Leafgren Elaine Maimon Elaine Miller Gaile Pohlhaus Jr Jennifer J Quinn Barbara J Rose Scott Sander Brian D Schultz Ling Shao L James Smart Pepper Stetler

Climate Change Education Across Disciplines K-12 Lauren Madden, 2025-02-15 Climate change is one of the greatest challenges humanity has ever faced One of the most effective ways to combat climate change is education In New Jersey standards to support teaching and learning about climate change were introduced for children of all ages beginning in 2022 In this edited volume experts from across the state offer strategies suggestions advice and vignettes to support educators as they begin to implement climate change instruction in their classrooms With a foreword by our state's First Lady Tammy S Murphy it also includes a scientific perspective on the effects of climate change in New Jersey the history of climate change education in the US and perspectives from colleagues in other states who are also beginning to adopt instructional practices to address this important topic

Climate Change Education National Research Council, Division of Behavioral and Social Sciences and Education, Board on Science Education, 2012-01-12 The global scientific and policy community now unequivocally accepts that human activities cause global climate change Although information on climate change is readily available the nation still seems unprepared or

unwilling to respond effectively to climate change due partly to a general lack of public understanding of climate change issues and opportunities for effective responses The reality of global climate change lends increasing urgency to the need for effective education on earth system science as well as on the human and behavioral dimensions of climate change from broad societal action to smart energy choices at the household level The public's limited understanding of climate change is partly the result of four critical challenges that have slowed development and delivery of effective climate change education As one response to these challenges Congress in its 2009 and 2010 appropriation process requested that the National Science Foundation NSF create a program in climate change education to provide funding to external grantees to improve climate change education in the United States To support and strengthen these education initiatives the Board on Science Education of the National Research Council NRC created the Climate Change Education Roundtable The Roundtable convened two workshops Climate Change Education Goals Audiences and Strategies is a summary of the discussions and presentations from the first workshop held October 21 and 22 2010 This report focuses on two primary topics public understanding and decision maker support It should be viewed as an initial step in examining the research on climate change and applying it in specific policy circumstances *Decentralized Decision-making in Schools* Harry Anthony Patrinos, Tazeen Fasih, 2009 An increasing number of developing countries are introducing School Based Management SBM reforms aimed at empowering principals and teachers or at strengthening their professional motivation thereby enhancing their sense of ownership of the school Many of these reforms have also strengthened parental involvement in the schools sometimes by means of school councils SBM programs take many different forms in terms of who has the power to make decisions as well as the degree of decision making devolved to the school level While some programs transfer authority only to school principals or to

Research in Education, 1974 *Managing to Change* Thomas Hatch, 2015-04-18 This book shows how school improvement efforts are often undermined by the changing conditions around schools as well as by some of the very policies and programs designed to help them make improvements Hatch argues that schools cannot wait around for conditions to improve or policymakers to figure out how to provide the right support Schools need to create the conditions for their own success To help them accomplish that the A01thor describes a small set of key practices that schools can use to get resources manage external demands and build their capacity to make and sustain improvements over time **Report on the Activities of the Committee on Education and the Workforce Together with Minority Views** United States. Congress. House. Committee on Education and the Workforce, 2011 **Justice and Equity in Climate Change Education** Elizabeth M. Walsh, 2022-02-21 This volume looks at the ways in which climate change education relates to broader ideas of justice equity and social transformation and ultimately calls for a rapid response to the need for climate education reform Highlighting the role of climate change in exacerbating existing societal injustices this text explores the ethical and social dimensions of climate change education including identity agency and societal structure and in doing so problematizes

climate change education as an equity concern Chapters present empirical analysis underpinned by a theoretical framework and case studies which provide critical insights for the design of learning environments curricula and everyday climate change related learning in schools This text will benefit researchers academics educators and policymakers with an interest in science education social justice studies and environmental sociology more broadly Those specifically interested in climate education curriculum studies and climate adaption will also benefit from this book

Education Reform in Societies in Transition Jaya Earnest, David F. Treagust, 2006 Framed against the background of educational change this book proposes to examine the relationship between curriculum change teacher professional development policy reform and the processes of educational change The main aims of the book are to 1 focus on educational changes and reconstruction in transitional societies that have undergone political economic and social change in the past two decades 2 provide a forum for the dissemination of research on education reconstruction and reform in transitional societies 3 disseminate ideas that enhance both the practical and theoretical aspects of educational changes in these societies 4 further knowledge and understanding of emerging trends and issues in education in these societies 5 reflect the realities of educational scenarios in each transitional society The book presents an in depth exploration of educational reconstruction in 15 transitional societies In each chapter the authors have provided an overview of educational processes in the country a distillation of education change or reform and or reconstruction in each transitional society Collectively the chapters in the book have attempted to contribute to a better understanding of the educational system in respective countries by identifying the challenges and obstacles the policy implications the teacher professional development needs and curriculum reform efforts
