Laruelle Anthony P. Smith, 2017-09-05 Francois Laruelles non philosophy or non standard philosophy represents a bold attempt to rethink how philosophy is practiced in relation to other domains of knowledge There is a growing interest in Laruelles work in the English speaking world but his work is often misunderstood as a wholesale critique of philosophy In this book Anthony Paul Smith dispels this misunderstanding and shows how Laruelles critique of philosophy is guided by the positive aim of understanding philosophys structure so that it can be creatively recast with other discourses and domains of human knowledge from politics and ethics to science and religion This book provides a synthetic introduction to the whole of Laruelles work It begins by discussing the major concepts and methods that have framed non philosophy for thirty years Smith then goes on to show how those concepts and method enter into traditional philosophical domains and disempower the authoritarian framework that philosophy imposes upon them Instead of offering a philosophy of politics or a philosophy of science Laruelle aims at fostering a democracy of thought where philosophy is thought together and equal to the object of its inquiry This book will be essential reading for students and scholars interested in contemporary French philosophy and anyone who wants to discover more about one of its foremost practitioners

Passavant, 2021-06-28 In Policing Protest Paul A Passavant explores how the policing of protest in the United States has become increasingly hostile since the late 1990s moving away from strategies that protect protesters toward militaristic practices designed to suppress protests He identifies reactions to three interrelated crises that converged to institutionalize this new mode of policing the political mobilization of marginalized social groups in the Civil Rights era that led to a perceived crisis of democracy the urban fiscal crisis of the 1970s and a crime crisis that was associated with protests and civil disobedience of the 1960s As Passavant demonstrates these reactions are all haunted by the figure of black insurrection which continues to shape policing of protest and surveillance notably in response to the Black
