Making Of A Cook:

The New Making of a Cook Madeline Kamman, 1997-11-05 Filled with low fat cooking tips and hints along with hundreds of recipes that extract maximum flavor from the least required amount of fat this revised cookbook teaches every technique used in today's homes and professional kitchens Tour *The Making of a Cook* Madeleine Kamman, 1971 Cooks who believe that another French cookbook is just what we don't need can be assured that this is a book of a different kind What we need to keep from French cuisine is the peerless techniques With those techniques we can create countless new dishes based on American ingredients corn sweet potatoes molasses brown sugar pine nuts pecans avocados limes American wines Bourbon which are rarely used in France No one has surpassed French cooking methods and so far they remain the foundation of most Western food preparation Nevertheless French cooking terms remain mysterious to many women While I have used some of these specific terms I have translated them or explained them so that the particular process is quite clear The techniques and recipes are part of what French food writer Robert Courtine calls la cuisine des femmes in contrast to the grande cuisine of chefs Consequently although there are some complicated dishes there is nothing here that cannot be performed in the home kitchen It is true that there are born cooks who can serve remarkable meals apparently without planning or recipes and without spending hours at the stove Unfortunately most of us need directions practice and time In my opinion the directions needed are not so much recipes as solid basic techniques that can be applied to countless preparations Although this book has recipes for eggs soups meats fish etc as most conventional cookbooks do the internal arrangement is different The information is organized according to methods or techniques For each technique I have tried to give you an explanation of the chemical and physical changes that take place in the pot while you are at the stove There are chemical reactions that can be critical for your results in the kitchen but do not worry no chemical formulas are to be found in the book By giving principles and proportions which you can apply to many different preparations I hope to help you to make your own way to creative cookery taken from Introduction page ix x **The Making of a Chef** Michael Ruhlman, 1999-10-15 Exploring the essence of becoming a chef this book reveals the elusive unnameable elements of great cooking **The Boston Cooking-School Cook Book** Fannie Merritt Farmer, 1912 Books That Cook Jennifer Cognard-Black, Melissa A. section are an extension of these cookbooks while the cookbook excerpts in turn become pieces of literature forms of storytelling and memory making all their own Each section offers a delectable assortment of poetry prose and essays and the selections all include at least one tempting recipe to entice readers to cook this book Including writing from such notables as Maya Angelou James Beard Alice B Toklas Sherman Alexie Nora Ephron M F K Fisher and Alice Waters among many others Books That Cook reveals the range of ways authors incorporate recipes whether the recipe flavors the story or the story serves to add spice to the recipe Books That Cook is a collection to serve students and teachers of food studies as well as any epicure who enjoys a good meal alongside a good book
