A Century of Revolution John Foran, 1994 Provides insight into the political currents that led to the Iranian revolution Before late 1978 Iran did not occupy a large place in the public mind mass media or academic pursuits With the massive upheaval of the next few months all this changed and the world is still trying to catch up with the dramatic events that brought Iran to its attention This volume offers a much needed look into the historical social and political developments leading up to the Iranian revolution Bringing together a group of scholars historians and social scientists most of them Iranian in origin the book documents an extraordinary revolutionary heritage that predates this century Each contributor examines a critical moment in Iranian social history on its own terms as well as within a larger theoretical and comparative context The topics they take up include the Tobacco Rebellion of 1890-91 the Constitutional Revolution of 1905-11 the rise of Reza Khan between 1921 and 1925 the autonomy movement in Azerbaijan and Kurdistan after World War II the oil nationalization movement under Musaddiq between 1951 and 1953 the unrest of the 1960-63 period the Iranian revolution of 1977-79 the state of Iran since the revolution Throughout common themes emerge especially the heterogeneous bases of Iranian social movements with respect to class gender and ethnicity as well as the diverse discourses nationalist Islamic socialist populist and radical that have animated these movements Representing a wide variety of perspectives and approaches this volume provides crucial insight into the widely watched but poorly understood phenomenon of present day

Beyond the Global Culture War Adam K. Webb,2013-08-21 Beyond the Global Culture War presents a cross cultural critique of global liberalism and argues for a broad based challenge that can meet it on its own scale Adam Webb is one of our most exciting and original young scholars and this book is certain to generate many new debates This timely volume probes many of the key challenges we face in the new millennium This is essential reading for all students of politics and globalization

Islam, Secularism, and Liberal Democracy Nader Hashemi,2009-04-02 Islam s relationship to liberal democratic politics has emerged as one of the most pressing and contentious issues in international affairs Nader Hashemi challenges the widely held belief among social scientists that religious politics and liberal democratic development are structurally incompatible While there are certainly tensions between religion and democracy the two are not irreconcilable Liberal democracy requires a form of secularism to sustain itself yet the main political cultural and intellectual resources that Muslim democrats can draw upon are religious How can this paradox be reconciled Hashemi makes three principal arguments First in societies where religion is a key marker of identity the road to liberal democracy must pass through the gates of religious politics The process of democratization therefore cannot be artificially de linked from debates about the normative role of religion in government Secondly while liberal democracy requires secularism

religious traditions are not born with an inherent secular and democratic conception of politics. These ideas must be developed and in an emerging democracy how they are developed is critical. Finally Hashemi argues that there is an intimate relationship between religious reformation and political development. While the first often precedes the second, these processes are deeply interlinked. Democratization does not require a privatization of religion but it does require a reinterpretation of religious ideas that are conducive to liberal democracy. By engaging in this reinterpretation, religious groups can play a central role in the development and consolidation of democracy.

Islam, Secularism and Liberal Democracy argues for a rethinking of democratic theory so that it incorporates the variable of religion in the development of liberal democracy. In the process, it proves that an indigenous theory of Muslim secularism is not only possible but is a necessary requirement for the advancement of liberal democracy in Muslim societies.

Security Arrangements in the Persian Gulf Mahboubeh F. Sadeghinia, 2011. Helps us to understand the reasons for the failure of security models in the Persian Gulf. This book provides a fresh model that addresses the need for a stable and peaceful structure of relationships, provides security for individual littoral states and also assures the interests of the external powers.

Political, Social and Cultural History of Modern Iran H. E. Chehabi, **The Last Shah** Ray Takeyh, 2021-01-26. The surprising story of Iran's transformation from America's ally in the Middle East into one of its staunchest adversaries. An original interpretation that puts Iranian actors where they belong at center stage.

Michael Doran, Wall Street Journal. An extraordinary account, deeply nuanced and eloquent.

Benjamin Weinthal, Jerusalem Post. Offering a new view of one of America's most important, famously strained and widely misunderstood relationships of the postwar era, this book tells the history of America and Iran from the time the last Shah, Mohammad Reza Pahlavi, was placed on the throne in 1941 to the 1979 revolution that brought the present Islamist government to power.

This revolution was not, as many believe, the popular overthrow of a powerful and ruthless puppet of the United States; rather, it followed decades of corrosion of Iran's political establishment by an autocratic ruler who demanded fealty but lacked the personal strength to make hard decisions and ultimately lost the support of every sector of Iranian society.

Esteemed Middle East scholar Ray Takeyh provides new interpretations of many key events, including the 1953 coup against Prime Minister Mohammad Mossadeq and the rise of Ayatollah Ruhollah Khomeini, significantly revising our understanding of America and Iran's complex and difficult history.

The ^APower Triangle Hazem Kandil, 2016-08-18. Revolution, reform, and resilience comprise the respective fortunes of modern Iran, Turkey, and Egypt. Although the countries all experienced coups with remarkably similar ambitions, each followed a very different trajectory. Iran became an absolutist monarchy that was overthrown from below; Turkey evolved into a limited democracy; and Egypt turned into a police state.

The Revolutionary Guards in Iranian Politics Bayram Sinkaya, 2015-06-19. The Islamic Revolutionary Guards Corps (IRGC) has been dubbed the kingmaker in recent studies of Iranian politics, precipitating heated debates surrounding the potential militarization of the Iranian regime and giving rise to paradoxical understandings of the IRGC, whether as a military

institution entering politics or a political institution with a military history Revolutionary Guards in Iranian Politics offers a way out of this paradox by showing that the IRGC is not a recently politicized institution but has instead been highly politicized since its inception It identifies the ways in which the IRGC relates to national political dynamics examines the factors contributing to this relationship and its implications on Iranian politics from the revolution up to the present day The book examines the three decades following the revolution uncovering the reasons behind the rise of the Revolutionary Guards and tracking the organization s evolving relationship with politics Establishing a theoretical framework from revolution and civil military relations theories this book provides new perspectives on the relationship between the IRGC and Iranian politics This book would be of interest to students and scholars of Middle East Studies and Iranian Studies in particular Iranian Politics
