Making Of Psychological Anthropology:

The Making of Psychological Anthropology George Dearborn Spindler, 1980-01-01 **The Making of Psychological Anthropology II** Marcelo M. Suárez-Orozco, George Spindler, Louise S. Spindler, 1994 **Interpretive Ethnography of Education at Home and Abroad** Louise Spindler, 2014-02-25 This ambitious and unique volume sets a standard of excellence for research in educational ethnography The interpretive studies brought together in this volume are outstanding discipline based analyses of education both in the United States and in complex societies abroad *New Directions in Psychological Anthropology* Theodore Schwartz, Geoffrey M. White, Catherine A. Lutz, 1992 The field of psychological anthropology has changed a great deal since the 1940s and 1950s when it was often known as Culture and Personality Studies Rooted in psychoanalytic psychology its early practitioners sought to extend that psychology through the study of cross cultural variation in personality and child rearing practices Psychological anthropology has since developed in a number of new directions Tensions between individual experience and collective meanings remain as central to the field as they were fifty years ago but alongside fresh versions of the psychoanalytic approach other approaches to the study of cognition emotion the body and the very nature of subjectivity have been introduced And in the place of an earlier tendency to treat a culture as an undifferentiated whole psychological anthropology now recognizes the complex internal structure of cultures The contributors to this state of the art collection are all leading figures in contemporary psychological anthropology and they write about recent developments in the field Sections of the book discuss cognition developmental psychology biology psychiatry and psychoanalysis areas that have always been integral to psychological anthropology but which are now being transformed by new perspectives on the body meaning agency and communicative practice *Psychology and Its Allied Disciplines* Marc H. Bornstein, 1984 First published in 1984 Routledge is an imprint of Taylor Francis an informa company **Learning a New Land** Carola Suárez-Orozco, Marcelo M. Suárez-Orozco, Irina Todorova, 2010-09-01 One child in five in America is a child of immigrants and their numbers increase each year Based on an interdisciplinary study that followed 400 newly arrived children from the Caribbean China Central America and Mexico for five years this book details the lives dreams academic journeys and frustrations of these youngest immigrants *Transforming Qualitative Data* Harry F. Wolcott, 1994-02-18 Publisher's description After the glamour of working in the field is over you now face the daunting challenge of transforming your field notes and interview tapes into a completed study But where do you start In *Transforming Qualitative Data* Harry F Wolcott guides you through the process of completing your research study Beginning with an introductory chapter that presents his views on ethnography he explores the transformation process by breaking it down into three related activities description analysis and interpretation To illustrate each point he critically examines his own work using nine of his previous studies as illustrations Then he shows you how to learn and to teach qualitative research by applying the three principles outlined in the volume Written with the usual wit and brilliance shown in Wolcott's work

Transforming Qualitative Data is a major statement on doing research by one of the master ethnographers of our time

Cultures Under Siege Antonius C. G. M. Robben, Marcelo M. Suarez-Orozco, 2000-09-14 Collective violence changes the perpetrators the victims and the societies in which it occurs It targets the body the psyche and the socio cultural order How do people come to terms with these tragic events and how are cultures affected by massive outbreaks of violence This book is a groundbreaking collection of essays by anthropologists psychologists and psychoanalysts drawing on field research in many different parts of the world Profiting from an interdisciplinary dialogue the authors provide provocative at times deeply troubling insights into the darker side of humanity and they also propose new ways of understanding the terrible things that people are capable of doing to each other

Weaving the Threads of Life Renaat Devisch, 1993-11 For the Yaka of Southwestern Zaire infertility is a tear in the fabric of life and the Khita fertility ritual is a trusted way of reweaving the damaged strands In Weaving the Threads of Life Rene Devisch offers an extended analysis of the Khita cult which leads to an original account of the workings of ritual healing Drawing on many years among urban and rural Yaka Devisch analyzes their understanding of existence as a fabric of firmly but delicately interwoven threads of nature body and society The fertility healing ritual calls forth forces feelings and meanings that allow women to rejoin themselves to the complex pattern of social and cosmic life These elaborate rites whether simulating mortal agony and rebirth gestation and delivery or flowering and decay using music and dance steambath or massage dream messages or scarification are not based on symbols of traditional beliefs Rather Devisch shows the rites themselves generate forces and meaning creating and shaping the cosmic physical and social world of their participants In contrast to current theoretical methods such as postmodern or symbolical interpretation Devisch's praxiological approach is unique in also using phenomenological insights into the intent and results of anthropological fieldwork This innovative work will have ramifications beyond African studies reaching into the anthropology of medicine and the body comparative religious history and women's studies

Return from the Natives Peter Mandler, 2013-05-07 Part intellectual biography part cultural history and part history of human sciences this fascinating volume follows renowned anthropologist Margaret Mead and her colleagues as they showed that anthropology could tackle the psychology of the most complex modern societies in ways useful for waging the Second World War

Textbook of Cultural Psychiatry Dinesh Bhugra, Kamaldeep Bhui, 2018-04-05 Cultural psychiatry deals with the impact of culture on causation perpetuation and treatment of patients suffering with mental illness The role of culture in mental illness is increasingly being recognised and the misconceptions that can occur as a result of cultural differences can lead to misdiagnoses under or over diagnosis This second edition of the Textbook of Cultural Psychiatry has been completely updated with additional new chapters on globalisation and mental health social media and tele psychiatry Written by world leading experts in the field this new edition provides a framework for the provision of mental health care in an increasingly globalised world The first edition of the Textbook of Cultural Psychiatry was commended in the BMA Book Awards in 2008

and was the recipient of the 2012 Creative Scholarship Award from the Society for the Study of Psychiatry and Culture

Culture, Behavior, and Personality Robert A. LeVine, *Schooling as a Ritual Performance* Peter McLaren, 1999 One of the most compelling ethnographies of school ever written *Schooling as a Ritual Performance* has for over a decade made its mark among educators sociologists and those seeking to understand the cultural meaning of classroom practices Written by one of the major world figures on the educational left *Schooling as a Ritual Performance* is a pioneering study of the partnership between capitalism and religion and the educational offspring it produces Not since Paul Willis *Learning to Labor* has an educational ethnography about schooling so pushed the limits of current social theory Now in a new edition to this classic text McLaren engages with some of the latest anthropological thinking and presents readers with a powerful manifesto for critical ethnography in the coming millennium

How Lifeworlds Work Michael Jackson, 2017-10-10 Michael Jackson has spent much of his career elaborating his rich conception of lifeworlds mining his ethnographic and personal experience for insights into how our subjective and social lives are mutually constituted In *How Lifeworlds Work* Jackson draws on years of ethnographic fieldwork in West Africa to highlight the dynamic quality of human relationships and reinvigorate the study of kinship and ritual How he asks do we manage the perpetual process of accommodation between social norms and personal emotions impulses and desires How are these two dimensions of lived reality joined and how are the dual imperatives of individual expression and collective viability managed Drawing on the pragmatist tradition psychology and phenomenology Jackson offers an unforgettable beautifully written account of how we make unmake and remake our lifeworlds

Culture and Demography in Organizations J. Richard Harrison, Glenn R. Carroll, 2021-07-13 How do corporations and other organizations maintain and transmit their cultures over time *Culture and Demography in Organizations* offers the most reliable and comprehensive answer to this complex question to date The first book on the subject to ground its analysis in mathematical tools and computer simulation it goes beyond standard approaches which focus on socialization within organizations by explicitly considering the effects of demographic processes of entry exit and organizational growth J Richard Harrison and Glenn R Carroll base their analysis on a formal model with three components hiring socialization and employee turnover In exploring the model's implications through computer simulation methods the authors cover topics such as organizational growth and decline top management teams organizational influence networks terrorist organizations cultural integration following mergers and organizational failure For each topic they identify the conditions influencing cultural transmission In general they find that demographic processes play a central role in influencing organizational culture and that studying these processes leads to some surprising insights unavailable when considering socialization alone This book which also serves as an ideal introduction to the increasingly popular use of computer simulation will be an indispensable resource for scholars and students of organization theory and behavior cultural studies strategic management sociology economics and social simulation

Anthropological Conversations Caroline B.

Brettell,2014-10-23 Cultural anthropologists can be an intellectually adventurous crowd open even eager to building bridges across disciplines in the name of understanding human behavior and the human experience more broadly In this first of its kind book Caroline Brettell explores the cross disciplinary conversations that have engaged cultural anthropologists both past and present Brettell highlights a handful of conversations between the discipline of anthropology on the one hand and history geography literature biology psychology and demography on the other She also pinpoints how these exchanges address three enduring issues of anthropological concern the temporal and the spatial dimensions of human experience the scientific and the humanistic dimensions of the anthropological enterprise and the individual and the group population as units of analysis in research Anthropological Conversations offers detailed accounts of particular ethnographic methodologies and findings and the theoretical trends informing them as a means of grasping the big picture issues Brettell clearly shows that by engaging with other fields cultural anthropologists have been able to think more deeply about what they mean by culture through this book she invites readers to continue the conversation Readings in African Popular Culture Karin Barber,1997 This is an extraordinarily rich collection full of informative detail and excellent interpretative analysis There is not a single piece that fails to fascinate Leeds African Studies Bulletin an impressive collection of inspiring and thought provoking essays Media Development This is a book that should find its way into many syllabuses and onto the bookshelves of Africanist scholars in many disciplines Its publication marks a key turning point in scholarship on the cultures of contemporary Africa Africa Today This book surveys the popular culture of contemporary Africa including popular literature oral narrative and poetry dance drama music and visual art with special emphasis on the verbal arts The essays cover six main areas views of the field oral tradition revisited social history social criticism and interpretation women in popular culture little genres of everyday life the local and the global **Theorizing Rituals, Volume 1: Issues, Topics, Approaches, Concepts** Jens Kreinath,J.A.M. Snoek,Michael Stausberg,2018-08-14 Volume one of Theorizing Rituals assembles 34 leading scholars from various countries and disciplines working within this field The authors review main methodological and meta theoretical problems part I followed by some of the classical issues part II Further chapters discuss main approaches to theorizing rituals part III and explore some key analytical concepts for theorizing rituals part IV The volume is provided with extensive indices The Cambridge Encyclopedia of Child Development Brian Hopkins,Elena Geangu,Sally Linkenauger,2017-10-19 Updated and expanded to 124 entries The Cambridge Encyclopedia of Child Development remains the authoritative reference in the field **Extraordinary Conditions** Janis H. Jenkins,2015-09-15 With a fine tuned ethnographic sensibility Janis H Jenkins explores the lived experience of psychosis trauma and depression among people of diverse cultural orientations revealing how mental illness engages fundamental human processes of self desire gender identity attachment and interpretation Extraordinary Conditions illuminates the cultural shaping of extreme psychological suffering and the social rendering of the mentally ill as nonhuman or not fully human Jenkins contends that

mental illness is better characterized in terms of struggle than symptoms and that culture is central to all aspects of mental illness from onset to recovery Her analysis refashions the boundaries between the ordinary and the extraordinary the routine and the extreme and the healthy and the pathological This book asserts that the study of mental illness is indispensable to the anthropological understanding of culture and experience and reciprocally that understanding culture and experience is critical to the study of mental illness
