Southern, 1956 **The Making of Middle Ages** R. W. Southern, 1981 **The Making of the Middle Ages** Marios Costambeys, Andrew J. Hamer, Martin Heale, 2007-01-01 Liverpool was founded in the Middle Ages and as the city approaches its eight hundredth anniversary this book takes stock of Liverpool's scholarly contributions to modern understanding of the period From the eighteenth century to the twenty first scholars from Liverpool have made pioneering advances in fields as diverse as Celtic philology and manuscript collecting By focusing on a local perspective this volume presents a microcosmic view of the different building blocks of the modern construction of the Middle Ages while offering fresh insights into more universal elements of medieval culture such as pageantry and mystery plays **Making a Living in the Middle Ages**

Christopher Dyer, 2003-08-11 Dramatic social and economic change during the middle ages altered the lives of the people of Britain in far reaching ways from the structure of their families to the ways they made their livings In this masterly book preeminent medieval historian Christopher Dyer presents a fresh view of the British economy from the ninth to the sixteenth century and a vivid new account of medieval life He begins his volume with the formation of towns and villages in the ninth and tenth centuries and ends with the inflation population rise and colonial expansion of the sixteenth century This is a book about ideas and attitudes as well as the material world and Dyer shows how people regarded the economy and responded to economic change He examines the growth of towns the clearing of lands the Great Famine the Black Death and the upheavals of the fifteenth century through the eyes of those who experienced them He also explores the dilemmas and decisions of those who were making a living in a changing world from peasants artisans and wage earners to barons and monks Drawing on archaeological and landscape evidence along with more conventional archives and records the author offers here an engaging survey of British medieval economic history unrivaled in breadth and clarity [The Making of the Middle Ages](#) R W (Richard William) 19 Southern, 2021-09-09 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public To ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface We appreciate your support of the preservation process and thank you for

being an important part of keeping this knowledge alive and relevant *The Making of the Middle Ages* Richard William Southern,1998 **The Making of Memory in the Middle Ages** Lucie Doležalová,2009-11-17 Memory in the Middle Ages has received particular attention in recent decades yet the topic remains difficult to grasp and the research on it rather fragmented This book gathers particular case studies on memory in different parts of medieval Europe and in a variety of fields including literatures languages manuscript studies history history of ideas philosophy social history and art history The studies address on the one hand memory as means of storing and recuperating knowledge arts of memory and memory aids and on the other hand memory as remembering and constructing the past including the subject of forgetting It should be useful to all interested in medieval culture literature and history Contributors are Milena Bartlov Bergsveinn Birgisson Irene Bueno Vincent Challet Greti Dinkova Bruun Lucie Dole alov D vid Falvay Carmen Florea C dric Giraud Laura Iseppi de Filippis Farkas G bor Kiss R diger Lorenz Else Mundal El d Nemerki William J Purkis Slavica Rankovi Lucia Raspe Kimberly Rivers Victoria Smirnova Francesco Stella P ter T th Tam s Visi Jon Whitman and Rafa W jcik **Making a Living in the Middle Ages** Christopher Dyer,2002-01-01 In this book Christopher Dyer reviews our thinking about the economy of Britain in the Middle Ages In analysing economic development and change he allows us to reconstruct the daily lives and experiences of people in the past *Making Money in the Early Middle Ages* Rory Naismith,2023-07-11 An examination of coined money and its significance to rulers aristocrats and peasants in early medieval Europe Between the end of the Roman Empire in the fifth century and the economic transformations of the twelfth coined money in western Europe was scarce and high in value difficult for the majority of the population to make use of And yet as Rory Naismith shows in this illuminating study coined money was made and used throughout early medieval Europe It was he argues a powerful tool for articulating people s place in economic and social structures and an important gauge for levels of economic complexity Working from the premise that using coined money carried special significance when there was less of it around Naismith uses detailed case studies from the Mediterranean and northern Europe to propose a new reading of early medieval money as a point of contact between economic social and institutional history Naismith examines structural issues including the mining and circulation of metal and the use of bullion and other commodities as money and then offers a chronological account of monetary development discussing the post Roman period of gold coinage the rise of the silver penny in the seventh century and the reconfiguration of elite power in relation to coinage in the tenth and eleventh centuries In the process he counters the conventional view of early medieval currency as the domain only of elite gift givers and intrepid long distance traders Even when there were few coins in circulation Naismith argues the ways they were used to give gifts to pay rents to spend at markets have much to tell us *Merovingian Mortuary Archaeology and the Making of the Early Middle Ages* Bonnie Effros,2003-03-03 Clothing jewelry animal remains ceramics coins and weaponry are among the artifacts that have been discovered in graves in Gaul dating from the fifth to eighth century Those who have unearthed them from the middle ages to

the present have speculated widely on their meaning This authoritative book makes a major contribution to the study of death and burial in late antique and early medieval society with its long overdue systematic discussion of this mortuary evidence Tracing the history of Merovingian archaeology within its cultural and intellectual context for the first time Effros exposes biases and prejudices that have colored previous interpretations of these burial sites and assesses what contemporary archaeology can tell us about the Frankish kingdoms Working at the intersection of history and archaeology and drawing from anthropology and art history Effros emphasizes in particular the effects of historical events and intellectual movements on French and German antiquarian and archaeological studies of these grave goods Her discussion traces the evolution of concepts of nationhood race and culture and shows how these concepts helped shape an understanding of the past Effros then turns to contemporary multidisciplinary methodologies and finds that we are still limited by the types of information that can be readily gleaned from physical and written sources of Merovingian graves For example since material evidence found in the graves of elite families and particularly elite men is more plentiful and noteworthy mortuary goods do not speak as directly to the conditions in which women and the poor lived The clarity and sophistication with which Effros discusses the methods and results of European archaeology is a compelling demonstration of the impact of nationalist ideologies on a single discipline and of the struggle toward the more pluralistic vision that has developed in the post war years

Inventing the Middle Ages Norman Cantor, 2023-01-01 The Middle Ages in our cultural imagination are besieged with ideas of wars tournaments plagues saints and kings knights lords and ladies In his era defining work *Inventing the Middle Ages* Norman Cantor shows that these presuppositions are in fact constructs of the twentieth century Through close study of the lives and works of twenty of the twentieth century s most prominent medievalists Cantor examines how the genesis of this fantasy arose in the scholars spiritual and emotional outlooks which influenced their portrayals of the Middle Ages In the course of this vigorous scrutiny of their scholarship he navigates the strong personalities and creative minds involved with deft skill Written with both students and the general public in mind *Inventing the Middle Ages* provided an alternative framework for the teaching of the humanities Revealing the interconnection between medieval civilisation the culture of the twentieth century and our own assumptions Cantor provides a unique standpoint both forwards and backwards As lively and engaging today as when it was first published in 1991 his analysis offers readers the core essentials of the subject in an entertaining and humorous fashion

The Making Af the Middle Ages ,1965 *The Modern Making of the Middle Ages* Walter Kudrycz,1997

War and Conflict in the Middle Ages Stephen Morillo,2022-08-19 In *War and Conflict in the Middle Ages* Stephen Morillo offers the first global history of armed conflict between 540 and 1500 or as late as 1800 CE an age shaped by climate change and pandemics at both ends Examining armed conflict at all levels and ranging across China and the central Asian steppes to southwest Asia western Europe and beyond Morillo explores the technological social cultural and environmental determinants of warfare and the tools and tactics used by warriors on land and at sea Part I

explains the geographical political and technological rules that shaped patterns of military activity everywhere Part II explores how these rules played out in various historical contexts Armed conflict played a central role in the making of the medieval world and medieval people used war and conflict to create expand and defend their communities and identities But the devastating effects of climate change and epidemic disease continually reshaped these communities and the nature of their conflicts Broad in its scope and rich in detail War and Conflict in the Middle Ages will be the go to guide for students and aficionados of military history medieval history and global history *Printing the Middle Ages* Sian Echard,2013-09-25 In *Printing the Middle Ages* Sian Echard looks to the postmedieval postmanuscript lives of medieval texts seeking to understand the lasting impact on both the popular and the scholarly imaginations of the physical objects that transmitted the Middle Ages to the English speaking world Beneath and behind the foundational works of recovery that established the canon of medieval literature she argues was a vast terrain of books scholarly or popular grubby or beautiful widely disseminated or privately printed By turning to these we are able to chart the differing reception histories of the literary texts of the British Middle Ages For Echard any reading of a medieval text whether past or present amateur or academic floats on the surface of a complex sea of expectations and desires made up of the books that mediate those readings Each chapter of *Printing the Middle Ages* focuses on a central textual object and tells its story in order to reveal the history of its reception and transmission Moving from the first age of print into the early twenty first century Echard examines the special fonts created in the Elizabethan period to reproduce Old English the hand drawn facsimiles of the nineteenth century and today s experiments with the digital reproduction of medieval objects she explores the illustrations in eighteenth century versions of *Guy of Warwick* and *Bevis of Hampton* she discusses nineteenth century children s versions of the *Canterbury Tales* and the aristocratic transmission history of John Gower s *Confessio Amantis* and she touches on fine press printings of Dante Froissart and Langland *Making the Medieval Relevant* Chris Jones,Conor Kostick,Klaus Oschema,2019-12-02 When scholars discuss the medieval past the temptation is to become immersed there to deepen our appreciation of the nuances of the medieval sources through debate about their meaning But the past informs the present in a myriad of ways and medievalists can and should use their research to address the concerns and interests of contemporary society This volume presents a number of carefully commissioned essays that demonstrate the fertility and originality of recent work in Medieval Studies Above all they have been selected for relevance Most contributors are in the earlier stages of their careers and their approaches clearly reflect how interdisciplinary methodologies applied to Medieval Studies have potential repercussions and value far beyond the boundaries of the Middle Ages These chapters are powerful demonstrations of the value of medieval research to our own times both in terms of providing answers to some of the specific questions facing humanity today and in terms of much broader considerations Taken together the research presented here also provides readers with confidence in the fact that Medieval Studies cannot be neglected without a great loss to the understanding of what it means to be human
