Johnson,2015-07-28 The working title of my novel was Metamorphosis for transmutation was the vehicle by which I intended to explore the concept of identity There is abundant research on the effects of nature and nurture and their repercussions on personality development It is well documented that our genes dictate our traits and that our exposure to experiences in the world mould our attitudes principles and morals which in turn enable the intellect to forge and govern our attitudes and behaviour Our identities the perceptions others have of them and the perception we have of the perception others have of them carry a huge burden The weak often struggle with the paranoia of self identity the strong appear to glide through life unaffected but often paddle furiously in deep running waters My thesis embraces a belief in universal self doubt and the tenuous grasp we have on the nature and structure of our existence and on how we define ourselves within this context It explores by means of control experiment transmutation the reference points of our existence both the unwarranted pride and abhorrence we recognise in ourselves and above all the enigma that is our identity     *Descartes: Meditations on First Philosophy* René Descartes,1996-04-18 The Meditations one of the key texts of Western philosophy is the most widely studied of all Descartes writings This authoritative translation by John Cottingham taken from the much acclaimed three volume Cambridge edition of the Philosophical Writings of Descartes is based upon the best available texts and presents Descartes central metaphysical writings in clear readable modern English As well as the complete text of the Meditations the reader will find a thematic abridgement of the Objections and Replies which were originally published with the Meditations containing Descartes replies to his critics These extracts specially selected for the present volume indicate the main philosophical difficulties which occurred to Descartes contemporaries and show how Descartes developed and clarified his arguments in response This edition contains a new comprehensive introduction to Descartes philosophy by John Cottingham and the classic introductory essay on the Meditations by Bernard Williams     **Food Sense** Marilyn Haag,2011-08-23 This book was written to share what I have learned slowly over time while raising children with milk and gluten allergies and emotional problems We refused to use drugs to control the childrens temper problems and instead used probiotics raw organic food assorted grains therapeutic essential oils and a lot of love and prayers Inside are healthy raw food recipes gluten free recipes money saving recipes bread canning recipes and a delicious collection of tried and true family favorites
