The book tells all about a boy born to a middle class rural family in the British colonial Ceylon Living in an era of strict cultural taboos and ancient practices his young life was utterly intricate Torn from the bosom of his family he departs from his cozy village home to a faraway school to suffer under sadistic teachers In a miserable boardinghouse he struggles with nasty bullyboys and battles along with constant homesickness The family tragedies worsen his misery drowning him in grief and hence confusion Later recovering and developing a great vision of life takes him out of misery to a successful university career To begin a new twist of fate he leaves his motherland to spend a quiet family life in New Zealand Then his family disappointments take him across the Tasman to Australia Living here for over a few decades he becomes a helpless victim of numerous adverse life events forcing him to a solitary single life Now he finds his way to survive the loneliness through his profound determination engaged in generosity Later when he expedites a romance overseas the surrounding enemies ruin it resulting in the tragic loss of his great lover leaving him in deep sorrow In dismay with a failed mission overseas and now aimless he returns to Australia Grieving silently and living a low profile suddenly his health deteriorates leaving a little ray of hope of life Eventually he recovers slowly and agonizingly bringing his life back to solitude again This is a vivid story written true to his memories in sequel and full of haunting childhood fomenting adolescence ghosts of numerous failures and finding ways to survive the great losses disappointments and loneliness through his determination Also interestingly the writer relates his times to important events took place in the outer world during these periods a kind of a historical account This is a dramatic life journey of a mans own purpose and meaning of battling along So those readers who seek a variety would find this book full of interesting episodes cultural background and differences in the light of the Westerners eyes Finally its a unique presentation and not the norm in traditional book stores

My Heavens! Gordon Rogers,2007-10-28 My Heavens charts the progress of the author s own substantial observatory with additional material from amateur constructors of large observatories elsewhere from conception through design planning and construction to using an observatory of the kind that all amateur astronomers would aspire to own This book tells the warts and all story of small beginnings in amateur astronomy leading to the construction of a top of the range observatory at a house on the edge of a country village between Oxford and London The author is a qualified building surveyor and looks at building the observatory from his own professional perspective There were of course many errors problems technical and organizational difficulties along the way and the author never shies away from admitting his mistakes and in doing so he reduces the chances of others falling into the same traps Comparisons are made with similar large projects in the USA taking a look at the differences and similarities in planning and building regulations and in construction methods on both sides of the Atlantic Eventually an observatory materialized set up to facilitate the taking of very high quality images of the deep sky on those special days of best seeing The story doesn t end with the construction of the observatory but goes on to describe the author s choice of equipment setting it up and his own techniques for obtaining superb astronomical images like the ones he shows in his book My
