Act Your Age! Kenneth Harris, 2021-05-06 *Act Your Age* A command in these or similar words was heard by most of us soon after we learned to walk and often heard repeated as we trekked our way through childhood As adulthood arrived perhaps you like the author have occasionally heard again that early exhortation ringing softly in your ears Now don't forget to act your age The author presents stories from his life as a suburban Oklahoma boy time study engineer financial analyst safety engineer police officer father of four grandfather of fourteen and pastor that provide an intimate candid lively and imaginative chronology from his youth up to the present day of his retirement in the panhandle of northern Idaho Emotions run the gamut from the deep sadness and vacuum of tragic loss to the joyful and raucous laughter found only in families Occasionally rational explanation eludes all efforts and he is forced to fall back on divine intervention Many were the opportunities that seemed to say *Act Your Age* In some he did In some he didn't You be the judge **Rachel Yoder Story**

Almost Fifty Years' Experience as a Pediatrician Paul N. Tschetter, MD, 2024-11-06 Slightly shy of a half century allows time for many events and experiences both professional and personal Dr Tschetter s personal health issues are chronicled as are personal family life events including the premature birth of a grandchild cancer and even death The dramatic changes in medicine are briefly outlined Knowledge concepts and procedures that were never dreamed of now shatter the imagination Sequencing of the human genome created therapies that stagger the mind Therapies once felt to be beneficial are found to be of no benefit and even harmful During forty nine years of medical practice there were many tears and joys Some of the interesting cases are shared with the reader including a discussion of their details and significance Death is not unknown in pediatric medicine Unfortunately children are not immune to dying nor are their parents In the early 1900s life expectancy was approximately forty five years Currently people are living into their late seventies A decrease in childhood mortality is a major factor This dramatic change is attributed in large part to vaccines I hope this book gives readers some insight into the lives of the women and men who have answered the call to serve in the medical profession Being a pediatrician was a highlight of my life and I hope you will appreciate we are not super human We simply have a desire to care for our children and fellow humans

struggles of his family as they strove to achieve the American dream and how he and his siblings went on to earn master degrees and doctorates from prestigious universities all because his parents took a leap of faith and held on to the courage of building a new life Some of stories Vinh shares are The family s perilous journey through pirate attacks on a lawless sea The grueling life of being in a refugee camp in Malaysia before their rescue by World Vision Their miraculous rescue and a new home in the unlikely town of Fort Smith Arkansas Vinh s struggles against poverty discrimination and a bewildering language barrier His graduation from Harvard Medical School Where the Wind Leads is Vinh s tribute to the courage and sacrifice of his parents a testimony to his family s faith and a reminder to people everywhere that the American dream while still possible carries with it a greater responsibility
