My Private Heroes:

Men of One Book Ian J Maddock, 2012-08-30 The proposal of this book is to guide the reader to the contrastive ministries of the two most dominant preachers of the eighteenth century evangelical revival In a wonderful comparative approach the author draws John Wesley and George Whitefield's portraits and explores their life and practice as well as their relationship Committed to the principle that the whole world was their parish Wesley and Whitefield manifested their singular desire to be men of one book through preaching ministries that were equally committed to the spread of the gospel throughout the transatlantic world The Negro's Church Benjamin E. Mays, 2015-08-04 Benjamin E Mays 1894 1984 was President and Professor Emeritus of Morehouse College **Audio Culture, Revised Edition** Christoph Cox, Daniel Warner, 2017-07-27 The groundbreaking Audio Culture Readings in Modern Music Continuum September 2004 paperback original maps the aural and discursive terrain of vanguard music today Rather than offering a history of contemporary music Audio Culture traces the genealogy of current musical practices and theoretical concerns drawing lines of connection between recent musical production and earlier moments of sonic experimentation It aims to foreground the various rewirings of musical composition and performance that have taken place in the past few decades and to provide a critical and theoretical language for this new audio culture This new and expanded edition of the Audio Culture contains twenty five additional essays including four newly commissioned pieces Taken as a whole the book explores the interconnections among such forms as minimalism indeterminacy musique concrète free improvisation experimental music avant rock dub reggae ambient music hip hop and techno via writings by philosophers cultural theorists and composers Instead of focusing on some crossover between high art and popular culture Audio Culture takes all these musics as experimental practices on par with and linked to one another While cultural studies has tended to look at music primarily popular music from a sociological perspective the concern here is philosophical musical and historical Audio Culture includes writing by some of the most important musical thinkers of the past half century among them John Cage Brian Eno Ornette Coleman Pauline Oliveros Maryanne Amacher Glenn Gould Umberto Eco Jacques Attali Simon Reynolds Eliane Radigue David Toop John Zorn Karlheinz Stockhausen and many others Each essay has its own short introduction helping the reader to place the essay within musical historical and conceptual contexts and the volume concludes with a glossary a timeline and an extensive discography
