Talented Evans,2019-11-23 Adopted at an early age I had no idea what was going on or what was about to happen to me I found myself growing up in a household with people that abused me mentally physically and emotionally Not knowing how to deal with living in a loveless home I began to act out I was out of control in school I made sure I got good grades My behavior on the other hand showed that I was a troubled child I did not listen to teachers principals or anyone else I pulled fire alarms and locked classroom and bathroom doors I was always in the principal's office for fighting or stealing I even remember sliding down the front hall in my slip That was just kindergarten I began drinking drugging and smoking cigarettes at the age of twelve At that time I felt like I was completely free of all emotion There was nothing or no one that was ever going to hurt me again I had become just as toxic as my environment I carried all that baggage to college with me It was there I met my children's father From infidelity to prison the back and forth in this relationship was shameful to say the least This had to be the pettiest relationship I have ever seen or been in Instead of walking away we got married and had two daughters together It was thirteen long years of heavy drinking drugging and domestic violence Our children witnessed far too much far too soon I was creating more damaged goods **How Comfortable Are Those Shoes?** Jack Connor,2019-01-09 People at certain points of life all over ask questions of wonder who how when why or what There have been thousands of questions from billions of people on or of life from individual questions to the world to the universe Some have been solved while others continually seek out answers We as a whole intuitively ask more all the time We all enter the same way just in different places and times It proves we're all connected in some sort of way whether we meet or not Our existence shows we are here to experience the different highs and lows in between How that's executed or accomplished is different for everyone One needs others to assist us in achieving it or them We do the same for others in return We may or may not enjoy the lesson that comes from it We may not even understand any of it We may not see value in it but later we do Experiences may prove different what we may have learned or believed on the paths we chose We can be humbled and we can also do great things The definition of success is different for each The definition of right and wrong is the same We're all energy We absorb the energy around us if we allow it to with the influences that create it These can be fantastic and paralyzing at the same time depending on the many factors that allow it manifest They are created by beliefs emotions and experiences Whatever allows us to exist is seen as different for anyone It allows us to make and learn from mistakes if we choose to It allows us to create

our own fate destiny and lives with the limited and unlimited resources we are given The definition of life and success in it is different for anyone you ask The reality in how one sees and values it is different too Jack Connor is no different than anyone else At least he did Through his experiences he s had finding the difficult lessons in it has blessed him with a new outlook toward it Many things happened that he had no control over Some experiences could ve been avoided all together but Jack chose not to let that happen He made mistakes and then more He lived in denial based on fear Things had to happen for the possibility of change Some made sense while others didn t His actions effected far more than he knew The lessons learned and the highs and lows of it still continue because of it the decisions he chooses to see life in Finding hope when there was none being humbled and rising back Miracles happening Finding a new way to live allowed him being placed where he was needed at the right time It s something he never expected There was no guarantee either But neither was he What happened to him has happened to others before and will happen to others again If you allow it to For whatever reason one change lead to another which allowed for him to see the perception of how his life was and the place he was placed in for a moment of time The results of this may never be known fully or until time allows it to It may take a lifetime or more And like everything else the only question he has is what s next And why how who and when

Breast Cancer Julianne S Oktay, J Dianne Garner, 2013-12-16 I will always and forever feel I have a hole in my life where my mother once existed I think when you have to think about the fact you might have to take care of your parents someday and juggle kids at the same time It s a scary proposition We had open communication during and before the breast cancer But then after the breast cancer I was often afraid to bring things up in trying to protect Mom This insightful book tells the stories of women whose mothers had breast cancer It uses their own voices to express the common fears and expectations of daughters in the periods before and during their mothers illnesses involving genetic risks death and dying and changes in their relationships The case studies tables and figures and two appendices will benefit health professionals and counselors while the poignant narratives will help mothers and daughters better understand their experiences with breast cancer I was kind of surprised to be alive and free of cancer at age 42 when at this point my mother was crippled by metastases When I get to be 43 the age at which my mother died or maybe when I get to 44 it s like what do I do I have this life that I didn t expect to have Breast Cancer Daughters Tell Their Stories presents the results of a qualitative grounded theory study of breast cancer survivors providing in depth information about an aspect of breast cancer that has been previously overlooked The book examines the daughters experiences through four phases the period prior to mother s illness the period during mother s illness and treatment the period following mother s death if mother dies and the long term impact From this study recommendations are compiled for providing or improving services for tomorrow s daughters The radical mastectomy left her scarred and disfigured below her nightgown It was bruised and nasty looking That was kind of scary I think that has terrified me since Sometimes I ll have pains in my left breast and that s what I visualize It s terrifying I m not really obsessed about dying of cancer I m more along the line of If this

is going to happen to me and there s a chance it s going to I m gonna survive I m not going to die from it From an empathetic perspective this book reveals how many daughters react to and deal with their mothers diagnoses depending on their age and family situation at the time of their mothers illnesses It shows how daughters can gain a more accurate idea of their level of risk by providing educational materials and developing new strategies for communication It also helps breast cancer survivors see how their illnesses can shape their daughters future outlook offering new inspiration for resolving and preventing family crises
