deeply personal glimpse into the world of dementia caregiving Kent and Linda give loving practical advice for caregivers based on what they've learned from their experiences Dealing with Dementia is a beautiful love letter to an unforgettable mother and a comforting resource for families and caregivers of dementia patients **My Journey With Jack** Sharon Annable, 2025-02-26 My Journey With Jack is the story of how I learned to maintain our communication through the various stages of my husband's dementia It is a story of how I learned to live in and become part of my husband's world It is not a how to book it is a this is what I learned book taken from my daily life as a caregiver of a spouse with dementia It is my hope that in reading this book you will find things that make your caregiving journey easier When My Grammy Forgets, I Remember Toby Haberkorn, 2015-03-21 With the increasing numbers of people diagnosed with Alzheimer's and other dementia conditions more families and children will experience the sadness and challenges of this disease in a beloved relative or friend When My Grammy Forgets I Remember A Child's Perspective on Dementia explores the difficult reality of dementia and the enduring strength of a nurturing relationship between a granddaughter and her beloved Grammy The Theft of Memory Jonathan Kozol, 2016-06-07 A Library Journal Best Book of 2015 National Book Award winner Jonathan Kozol is best known for his fifty years of work among our nation's poorest and most vulnerable children Now in the most personal book of his career he tells the story of his father's life and work as a nationally noted specialist in disorders of the brain and his astonishing ability at the onset of Alzheimer's disease to explain the causes of his sickness and then to narrate step by step his slow descent into dementia Dr Harry Kozol was born in Boston in 1906 Classically trained at Harvard and Johns Hopkins he was an unusually intuitive clinician with a special gift for diagnosing interwoven elements of neurological and psychiatric illnesses in highly complicated and creative people One of the most intense relationships of his career his son recalls was with Eugene O'Neill who moved to Boston in the last years of his life so my father could examine him and talk with him almost every day At a later stage in his career he evaluated criminal defendants including Patricia Hearst and the Boston Strangler Albert H DeSalvo who described to him in detail what was going through his mind while he was killing thirteen women But The Theft of Memory is not primarily about a doctor's public life The heart of the book lies in the bond between a father and his son and the ways that bond intensified even as Harry's verbal skills and cogency progressively abandoned him Somehow the author says all those hours that we spent trying to fathom something that he wanted to express or summon up a vivid piece of seemingly lost memory that still brought a smile to his eyes left me with a deeper sense of intimate connection with my father than I'd ever felt before Lyrical and stirring The Theft of Memory is at once a tender tribute to a father from his son and a richly colored portrait of a devoted doctor who lived more than a century **Lewy Body Dialogue** Patricia Potter-Efron, Ronald Potter-Efron, 2020-09 Pat and Ron Potter-Efron had been married for 54 years when Pat received the diagnosis of Lewy Body Dementia in 2018 Both were recently retired mental health counselors who had been co-owners of a private clinic in Eau Claire WI They were also co-authors of several popular books including the best

sellers Letting Go of Shame and Letting Go of Anger They soon began facing the reality of how Lewy Body Dementia was affecting their lives Most importantly they searched for a way to continue to contribute meaningfully to society while living as complete and satisfying lives as possible That is when they decided to write a journal of their experiences but a journal different than any they had encountered as they reviewed the Lewy Body literature Pat and Ron began to write a series of conversations Ron would initiate a relevant topic hallucinations teamwork mortality etc and then Pat would add her comments Fortunately Pat has retained her ability to clearly describe her thoughts and feelings even as some of her abilities have diminished Pat does not always agree with Ron s observations of course The perspectives of care receiver inevitably differ from those of care giver When other couples in the Lewy Body dementia community discovered Ron and Pat s work they were eager to see it The result was the creation of a website blog named Lewy Body Dialogue This book represents a compilation of the first fifty six chapters of their journal written over a two year period It is the creation of a true care partnership
