My Lesbian Husband Landscapes Of A Marriage:

My Lesbian Husband Barrie Jean Borich, 2013-03-12 In My Lesbian Husband Barrie Jean Borich asks a fascinating question do the names we give our relationships change their meanings Each chapter entertains an aspect of this question with prose that is spirited artful anything but pat Here is an author who takes neither love nor the power of language for granted and her book is as provocative and lively as the love it evokes An extraordinary performance by a writer who renews our wonder at the complexity of human connection Bernard Cooper Barrie Jean Borich wins my respect with her ingenious and original description of feelings which for many need translating into a familiar language She writes about her lover and their life together with a rare deftness clarity and antic sense of humor never strident or defensive rather self confident and as if she herself were curious to discover what she is thinking about their relationship Rosellen Brown *The Europa Directory of Literary Awards and Prizes* Europa, 2015 Moving Archives Linda M. Morra, 2020-01-15 The image of the dusty undisturbed archive has been swept away in response to growing interest across disciplines in the materials they house and the desire to find and make meaning through an engagement with those materials Archival studies scholars and archivists are developing related theoretical frameworks and practices that recognize that the archives are anything but static Archival deposits are proliferating and the architects practitioners and scholars engaged with them are scarcely able to keep abreast of them Archives archival theory and archival practice are on the move But what of the archives that were once safely housed and have since been lost or are under threat What of the urgency that underscores the appeals made on behalf of these archives As scholars in this volume argue archives their materialization their preservation and the research produced about them are moving in a different way they are involved in an emotionally engaged and charged process one that acts equally upon archival subjects and those engaged with them So too do archives at once represent members of various communities and the fields of study drawn to them Moving Archives grounds itself in the critical trajectory related to what Sara Ahmed calls affective economies to offer fresh insights about the process of archiving and approaching literary materials These economies are not necessarily determined by ethical impulses although many scholars have called out for such impulses to underwrite current archival practices rather they form the crucial affective contexts for the legitimization of archival caches in the present moment and for future use *Books and Beyond* Kenneth Womack, 2008-10-30 There s a strong interest in reading for pleasure or self improvement in America as shown by the popularity of Harry Potter and book clubs including Oprah Winfrey s Although recent government reports show a decline in recreational reading the same reports show a strong correlation between interest in reading and academic achievement This set provides a snapshot of the current state of popular American literature including various types and genres The volume presents alphabetically arranged entries on more than 70 diverse literary categories such as cyberpunk fantasy literature flash fiction GLBTQ literature graphic novels manga and anime and zines Each entry is written by an expert contributor and provides a definition of the genre an
