

A romantic couple is shown from the chest up, submerged in clear blue ocean water. The man, on the left, has dark hair and a light beard, and is smiling broadly at the woman. The woman, on the right, has long dark hair and is also smiling, looking towards the man. They are facing each other with their foreheads nearly touching. The background shows the vast expanse of the ocean under a clear sky.

George Herbert 1593 1633 the celebrated devotional poet and his brother Lord Herbert of Cherbury 1583 1648 often described as the father of English deism are rarely considered together This collection explores connections between the full range of the brothers writings and activities despite the apparent differences both in what they wrote and in how they lived their lives More specifically the volume demonstrates that despite these differences each conceived of their extended republic of letters as militating against a violent and exclusive catholicity theirs was a communion in which contention or disputation served to develop more dynamic forms of comprehensiveness The literary philosophical and musical production of the Herbert brothers appears here in its full European context connected as they were with the Sidney clan and its investment in international Protestantism The disciplinary boundaries between poetry philosophy politics and theology in modern universities are a stark contrast to the deep interconnectedness of these pursuits in the seventeenth century Crossing disciplinary and territorial borders contributors discuss a variety of texts and media including poetry musical practices autobiography letters council literature orations philosophy history and nascent religious anthropology all serving as agents of the circulation and construction of transregionally inspired and collective responses to human conflict and violence We see as never before the profound connections face to face as well as textual linking early modern British literary culture with the continent

In the first of the Strangers and Brothers series Lewis Eliot tells the story of George Passant a Midland solicitor's managing clerk and idealist who tries to bring freedom to a group of people in the years 1925 to 1933 George Oppen and the Fate of Modernism Peter Nicholls, 2007-10-25 Regard for George Oppen's poetry has been growing steadily over the last decade Peter Nicholls's study offers a timely opportunity to engage with a body of work which can be both luminously simple and intriguingly opaque Nicholls charts Oppen's commitment to Marxism and his later explorations of a poetics of being inspired by Heidegger and Existentialism providing detailed accounts of each of the poet's books He is the first critic to draw extensively on the Oppen archive with its thousands of pages of largely unpublished notes and drafts for poems in doing so he is able to map the distinctive contours of Oppen's poetic thinking and to investigate the complex origins

of many of his poems Oppen emerges from this study as a writer of mercurial intensities for whom every poem constitutes a beginning again a freeing of the mind from thoughts known in advance A strikingly innovative and challenging poetics results from Oppen s attempt to avoid what he regards as the errors of the modernist avant garde and to create instead a designedly impoverished aesthetic which keeps poetry close to the grain of experience and to the political and ethical dilemmas it constantly poses

Warren Buffett & George Soros Mark Tier, 2013-09-17 Warren Buffett, Carl Icahn, and George Soros all started with nothing and made billion dollar fortunes solely by investing. But their investment strategies are so widely divergent what could they possibly have in common? As Mark Tier demonstrates in this insightful book, the secrets that made Buffett, Icahn, and Soros the world's three richest investors are the same mental habits and strategies they all practice religiously. However, these are mental habits and strategies that fly in the face of Wall Street's conventional mindset. For example, Buffett, Icahn, and Soros do not diversify. When they buy, they buy as much as they can. They're not focused on the profits they expect to make. Going in, they're not investing for the money at all. They don't believe that big profits involve big risks. In fact, they're far more focused on not losing money than making it. Wall Street research reports? They never read them. They're not interested in what other people think. Indeed, Buffett says he only reads analyst reports when he needs a laugh. In *The Winning Investment Habits of Warren Buffett*, George Soros, you can discover how the mental habits that guided your last investment decision stack up against those of Buffett, Icahn, and Soros. Then learn exactly how you can apply the wealth building secrets of the world's richest investors to transform your own investment results.
