Sassafras Rebecca Huntley, 2024-08-28 When you've experienced trauma and conventional treatments have failed where do you turn After unsuccessfully trying traditional therapy renowned author and social researcher Rebecca Huntley chose an unconventional path to healing MDMA The drug MDMA is made from the root of the sassafras tree It is known as a party drug taken to have a good time to dance to shed inhibitions It has also since early 2023 been authorised in Australia for use in treatment for post traumatic stress disorder that has not responded to treatment For those with PTSD the goal is not to have a good time and dance it is to find a way forward in their lives after trauma and to find their way back to the person they were before they were traumatised For Rebecca this meant reconciling with the violence trauma death and despair that had taken root in her life It also meant stopping a crushing cycle of intergenerational trauma for the sake of her children She had three sessions of MDMA therapy delivered by an underground healer The treatment changed her life her view of the world and the way she saw the past present and future It led to greater wisdom compassion and awareness of the connections between humans and the natural world Sassafras is the story of a woman determined to confront her traumatic past head on In doing so she discovered something that could be of great benefit to us all **Okay, Now What?** Kate

Gladdin, 2024-11-12 From life coach Kate Gladdin this easy to follow three step plan for how to bravely face life's unexpected challenges is the foolproof solution to developing resilience When motivational speaker Kate Gladdin was twenty years old she woke up in the middle of the night to find out her older sister had died in a tragic road accident Suddenly everything she knew about her life her future and her family shattered in a heartbeat Just like Gladdin we all face loss in different ways every day because adversity is a part of life There's no getting around it only through it and the most vital tool we need to overcome the unexpected is resilience It was this realization that led Gladdin to become a resilience expert life coach and motivational speaker Through her own proven three step strategy using the three Rs to recognize reflect and redirect she now has the skills to use anytime she feels helpless and wants to take back control over any circumstance she faces It's this incredible method that Gladdin teaches in *Okay Now What* She shows readers how to recognize what's really causing them to struggle the most reflect on the impact of that struggle and finally the most important step how to redirect toward finding the resilience they need to grow through what they go through and create good from even the worst moments in life

Resilience isn't a fixed trait that you are born with like your eye color or the shape of your toes Resilience is a skill that any of us can grow and develop with practice and in *Okay Now What* you will learn exactly how to do so **Caliphornia** Jack Mearns, 2008-11-26 Mid 21st Century Los Angeles after a succession of natural disasters in a landscape wracked by global warming the city is now the western most outpost of an Arab empire Ali is a Los Angeles born police officer His local birth leaves him under suspicion when he discovers the body of the daughter of one of the Caliph's ruling elite Arab born fellow
